## **The Russian Political System:**

*Contemporary Russian Politics* Neil Robinson, 2019-04-16 Vladimir Putin's return to the Kremlin for a fourth presidential term in 2018 has seen Russian democracy weaken further and Russia's relations with the West deteriorate seriously. Yet within Russia, Putin's position remains unchallenged and his foreign policy battles have received widespread public support. But is Putin as safe as his approval ratings lead us to believe? And how secure is the regime that he heads? In this new book, Neil Robinson places contemporary Russian politics in historical perspective to argue that Putin's regime has not overcome the problems that underpinned the momentous changes in twentieth-century Russian history when the country veered from tsarism to Soviet rule to post-communist chaos. The first part of the book outlines why crises have been perennial problems for Russia, followed by an exploration of contemporary Russian political institutions and policy to show how Putin has stabilised Russian politics. But while Putin's achievements as a politician have been considerable in strengthening his personal position, they have not dealt successfully with the enduring problem of the Russian state's functionality. Like other Russian rulers, Putin has been much better at establishing a political system that supports his rule than he has at building up a state that can deliver material wealth and protection to the Russian people. As a result, Robinson argues, Russia has been and remains vulnerable to political crisis and regime change.

**Routledge Handbook of Russian Politics and Society** Graeme Gill, 2022-12-23 This second edition of the highly respected Routledge Handbook of Russian Politics and Society both provides a broad overview of the area and highlights cutting-edge research into the country. Through balanced theoretical and empirical investigation, each chapter examines both the Russian experience and the existing literature, identifies and exemplifies research trends, and highlights the richness of experience, history, and continued challenges inherent to this enduringly fascinating and shifting polity. Politically, economically, and socially, Russia has one of the most interesting development trajectories of any major country. This Handbook answers questions about democratic transition, the relationship between the market and democracy, stability and authoritarian politics, the development of civil society, the role of crime and corruption, the development of a market economy, and Russia's likely place in the emerging new world order. Providing a comprehensive resource for scholars, students, and policy makers alike, this book is an essential contribution to the study of Russian studies, politics, Eastern European studies, politics, and International Relations.

**Russian Political Atlas - Political Situation, Elections, Foreign Policy, Contacts** IBP, Inc, 2013-08-01

**Presidential Power in Russia** Eugene Huskey, 2016-09-16 This is the first major assessment of the role of the presidency in Russia's difficult transition from communist rule. Huskey analyzes the establishment and functioning of the Russian presidency as an institution and in relation to the other leading institutions of state: the government, parliament, courts, and regional authorities. Although this is not a biography of the first president, Boris Yeltsin, his allies, and his rivals loom large in the study of a critical phase in the creation of a new Russian political system.

**The Russian People and Foreign Policy** William Zimmerman, 2009-02-09 Since the

fall of communism public opinion in Russia including that of a now more diverse elite has become a substantial factor in that country's policymaking process What this opinion might be and how it responds to American actions is the subject of this study William Zimmerman offers important and sometimes disturbing insight into the thinking of citizens in America's former Cold War adversary about such matters as NATO expansion Drawing on nearly a decade of unprecedented surveys he conducted with a wide spectrum of the Russian public he gauges the impact of Russia's opening on its foreign policy and how liberal democrats orient themselves to foreign policy He also shows that insights from the study of American foreign policy are often portable to the study of Russian foreign policy attitudes As Zimmerman shows the general public which had a modest but real role in foreign policy decision making tended much more toward isolationism than did the predominant elites who steered Russia's foreign policy in the 1990s Interspersing smooth prose with a wide array of richly informative tables the book represents an invaluable opportunity to discern probable shifts in Russian foreign policy that domestic political changes would bring And it powerfully suggests that the West by forging its own policies toward Russia with more prudence can have a say in the outcome of the great choice facing Russia whether to forge ahead with democracy or slip back into authoritarianism

**Russian Environmental Politics** Ellie Martus, 2017-07-06 This book explores how policymaking works in Russia focusing on the important field of environmental policy It argues that contrary to the prevailing view that power is concentrated in the president's hands policy is in fact made by the bureaucracy and influential industry and industrial association lobbyists

**The Russian Revolution, 1917** Rex A. Wade, 2005-04-21 Rex Wade presents an account of one of the pivotal events of modern history combining his own long study of the revolution with the best of contemporary scholarship Within an overall narrative that provides a clear description of the 1917 revolution he introduces several new approaches on its political history and the complexity of the October Revolution Wade clears away many of the myths and misconceptions that have clouded studies of the period He also gives due space to the social history of the revolution and incorporates people and places too often left out of the story including women national minority peoples and peasantry front soldiers enabling a more complete history to emerge The 2005 second edition of this highly readable book has been thoroughly revised and expanded It will prove invaluable reading to anyone interested in Russian history

[Russian Government and Politics](#) Eric Shiraev, 2025-03-06 This new edition covers everything students need to know about the key institutions people parties and policies in Russian government and politics as well as covering political behaviour participation and communication Revised to offer coverage and analysis of recent events this new edition offers discussion of the war in Ukraine and its geopolitical economic social and psychological consequences It also offers critical discussion of the Russian political system and its pivot toward authoritarianism as well as detailed discussion of social and cultural issues and their interaction with politics to further underline the role of individual personalities and the political impact of informal political and business arrangements in Russia With new research and statistical updates including opinion polls expert

opinions and other sources this is the ideal text for upper level undergraduate and postgraduate students studying Russian politics or comparative government and politics more broadly     *The Russian Government and the Massacres* Evgenii Petrovich Semenov,1907     **Politics of the Russian Nobility, 1881-1905** Gary M. ### **The Russian Political System Introduction**

In the digital age, access to information has become easier than ever before. The ability to download The Russian Political System has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Russian Political System has opened up a world of possibilities. Downloading The Russian Political System provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Russian Political System has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Russian Political System. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Russian Political System. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Russian Political System, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Russian Political System has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By

doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
