

Inclusive XR & Hybrid Work Toolkit

How to Use Accessible Extended Reality (XR) Tools to Make Hybrid Workplaces Inclusive

The Partnership on Employment & Accessible Technology (PEAT) created this Toolkit to help employers understand the value of using accessible extended reality (XR) technologies in hybrid work environments. After reading this Toolkit, you will better understand how to procure accessible XR technologies for your workplace. You will also learn how to use these technologies in ways that include all employees equally.

Virtual Technical Services Mary Beth Weber, Melissa De Fino, 2022-04-25 Prior to the COVID pandemic there was little published information to guide technical services operations on how to deal with crises and emergencies Viewed as a backroom operation by administration little thought historically has been given to how these employees might protect equipment and resources and continue to provide services that seamlessly support the rest of the library *Virtual Technical Services A Handbook* is the first to address emergency and crisis planning specifically for technical services The authors address how to create an emergency plan and how to prepare for an uncertain future that will undoubtedly include other threats to our health and safety We discuss how the pivot to remote work can revolutionize technical services librarianship and allow us to better serve the needs of a 21st Century library As the WFH period extended longer than anticipated libraries and other organizations realized both the challenges and benefits of working remotely WFH is about more than just doing one's job and we focus on employees as individuals with needs that include work life balance self care and the flexibility to meet life circumstances including childcare eldercare and appointments A unique feature of our book is the focus on employee well being including burnout and self care Prior to COVID 19 employee well being was typically not emphasized as part of personnel management The risks to our health and

safety and being removed from the physical workplace provided the opportunity to re-examine priorities and reframe them to forge a stronger and more collaborative relationship between employers and employees. Technical services personnel in particular are subject to burnout as their operations are frequently understaffed and they face competing demands of serving both libraries' physical needs and supporting electronic and digital resources. Management in a remote work environment has challenges that are not present in an on-site operation. Communication, setting expectations, and documentation and training take on added significance when WFH, as does accountability. Our book addresses these aspects of management through a WFH lens. The book also covers the return to work after a shift to remote, whether it is completely on-site, hybrid, or some combination. Normalization, determining staffing levels, employee accommodations, and an adjustment period are discussed. Since most technical services personnel have not previously had to pivot to remote on short notice and for an extended period, the book addresses these issues for libraries as they make decisions about repopulating their workplaces.

50 Top Tools for Coaching Gillian Jones, Ro Gorell, 2026-03-03. Equip leaders and coaches to drive high performance, resilience, and inclusive growth in every environment. *50 Top Tools for Coaching* is a practical guide for senior executives, HR leaders, and coaches who need proven, adaptable tools to strengthen leadership capability and accelerate performance. Written by coaching experts Gillian Jones and Ro Gorell, this fully updated sixth edition provides comprehensive exercises, models, checklists, and templates that help leaders coach with confidence, clarity, and measurable impact. Covering the full coaching lifecycle, this book shows how to diagnose client needs, select the right intervention for each scenario, and deliver coaching that improves decision-making, builds capability, and supports transformation. It also includes new tools for hybrid work, inclusive leadership, and neurodiverse teams, enabling leaders to coach effectively across complex, distributed, and fast-changing environments. You'll learn how to apply evidence-based tools to strengthen performance, confidence, and accountability. Coach hybrid and neurodiverse teams with inclusive, flexible approaches. Address conflict, navigate change, and support leaders through uncertainty. Use coaching techniques and AI-enabled tools to elevate leadership effectiveness. With online resources, interactive templates, and practical demonstrations, *50 Top Tools for Coaching* gives senior leaders and coaches the frameworks they need to build high-performing cultures, develop talent at scale, and lead with greater empathy, agility, and impact. Themes include executive coaching, leadership development, hybrid work, inclusive leadership, neurodiversity, organizational change, and coaching tools.
