*An Ethnographic Study of Northern Ghanaian Conflicts* A. K. Awedoba, 2009 Conflict in Northern Ghana appears to be increasing in amplitude and frequency and its effects are getting more devastating It is the view of this book that The Government of Ghana and civil society organisations involved in aspects of conflict management have approached peace issues in the region with an inadequate understanding of the local issues that divide and unite the people or using sufficient resources to prevent conflict In 2003 The Mole V summit was held in Damongo to discuss strategic directions for comprehensive development and poverty reduction in Northern Ghana as a mechanism for supporting conflict management It is the aim of this publication to contribute to the proposed plan by suggesting past and current conflict management resources and mechanisms which could be employed The suggestions are informed by surveys which are outlined in the book of particular conflicts in the three northern Regions of Ghana between 2006 and 2008 their histories causes and efforts and their resolution

Ghervas, 2021-03-30 A bold new look at war and diplomacy in Europe that traces the idea of a unified continent in attempts since the eighteenth century to engineer lasting peace Political peace in Europe has historically been elusive and ephemeral Stella Ghervas shows that since the eighteenth century European thinkers and leaders in pursuit of lasting peace fostered the idea of European unification Bridging intellectual and political history Ghervas draws on the work of philosophers from Abb de Saint Pierre who wrote an early eighteenth century plan for perpetual peace to Rousseau and Kant as well as statesmen such as Tsar Alexander I Woodrow Wilson Winston Churchill Robert Schuman and Mikhail Gorbachev She locates five major conflicts since 1700 that spurred such visionaries to promote systems of peace in Europe the War of the Spanish Succession the Napoleonic Wars World War I World War II and the Cold War Each moment generated a spirit of peace among monarchs diplomats democratic leaders and ordinary citizens The engineers of peace progressively constructed mechanisms and institutions designed to prevent future wars Arguing for continuities from the ideals of the Enlightenment through the nineteenth century Concert of Nations to the institutions of the European Union and beyond *Conquering Peace* illustrates how peace as a value shaped the idea of a unified Europe long before the EU came into being Today the EU is widely criticized as an obstacle to sovereignty and for its democratic deficit Seen in the long range perspective of the history of peacemaking however this European society of states emerges as something else entirely a step in the quest for a less violent world
