A Town Called Cedar Springs A. C. Greene, 1984 **The Cedar Springs Story** Sue A. Harrison, Donna J. DeJong, 1976

History of Winona, Olmsted, and Dodge Counties Together with Biographical Matter Statistics, Etc, 1884

Healing Waters Loring Bullard, 2004 Missouri's mineral springs and resorts played a vital role in the social and

economic development of the state In *Healing Waters* Loring Bullard delves into the long history of these springs and spas concentrating particularly on the use and development of the mineral springs from 1800 to about the 1930s During this period there were at least eighty sites in the state that could be described as resorts Because so many people were drawn to the springs by their faith in the healing virtues of the springwater towns were frequently founded at the mineral springs These places fought hard to capture the attention of Missourians who were seeking better health relaxation or good times in the late 1800s and early 1900s Bullard first examines the development of mineral water resorts in Europe from ancient times early spa traditions in America and Missouri's frontier spas He then discusses the establishment of saltworks at the state's saline springs and the importance of the early salt trade the brisk business that grew around the bottling of mineral waters the use and development of mineralized groundwater resources the geologic and biologic factors that create Missouri's mineral waters and public and professional belief in the curative values of mineral waters *Healing Waters* also traces the demise of Missouri's mineral water resorts and towns Well into the twentieth century when modern medicine had seemingly taken hold many physicians and scientists continued to proclaim the medicinal virtues of mineral waters However by the second quarter of the twentieth century medical science and popular opinion had discounted the immediate medical usefulness of mineral waters As advances were made in microbiology and biochemistry and with the inherent promise of drug cures orthodox medicine began to turn a cold shoulder on mineral water treatments Spa treatments with their long regimens also did not fit well with the increasingly fast paced lifestyles of the public By visiting the sites gathering local historical accounts interviewing local citizens and photographing remaining artifacts Bullard has done a masterful job in providing the answers to why these vibrant social centers came to be and why they faded *The Cajon Pass* Alice Eby Hall, 2009 California bloomed when modern men conquered Cajon Pass California's two transverse east to west mountain ranges the San Gabriel and San Bernardino prevented commerce east between two thirds of Southern California and the rest of the state Cajon Pass the low point between the two ranges was first opened to business by roads that generally followed old Native American trails When railroads pierced the divide in 1885 Northern and Southern California and states to the east benefitted Utility trunks followed first electrical power in about 1912 followed by telephone and finally natural gas pipelines Courageous tireless independent pioneers settled Cajon Pass while looking for gold mining lime and nursing water from the ground to satisfy needs of livestock and crops Even today the Burlington Northern Santa Fe and Union Pacific Railroads run their busiest freight transport tracks through Cajon Pass and Highway 15 competes successfully with its more western counterpart
