**Environmental Justice** Paul Thompson, 2017-09-29 Environmental justice is one of the most controversial and important issues in contemporary social science Volume 8 of the Energy and Environmental Policy series challenges our understanding of environmental justice in a global context It includes theoretical investigations and case studies by leading authors in the field Global forces of technology and the development of global markets are transforming social life and the natural order These changes require a critical examination of nature society relations Increasingly modernization assigns the risks of modernity to those with the least power and greatest vulnerability to environmental harm Conventional environmentalism which focuses on critique of the effects of humanity against nature is inadequate to the challenges of globalization In particular it fails to explain sources of persistent patterns of social injustice that accompany escalating environmental exploitation As the capacity for environmental destruction expands broader concerns about environmental injustice have come to the fore including awareness of threats to whole cultures ways of life and entire ecologies The volume s authors consider the links between expanded patterns of environmental injustice and the structures and forces underlying and shaping the international political economy Environmental injustice is examined across a variety of cultures in the developed and developing world Through case studies of climate colonialism revolutionary ecology and environmental commodification the global and local dimensions of the problem are presented The latest volume in this important series demonstrates that environmental justice cannot be reduced to simple parables of indifference prejudice or appropriation It forges understanding of environmental injustice as a development of international political economy itself Likewise initiatives on behalf of environmental justice are seen as elements of broader movements to secure self determination in a globalizing world This book will be of interest to policymakers energy and environmental experts and all those interested in the environment and environmental law It provides new perspectives on the place of environmental

justice in international political and economic conflict      Faith, Health, and Healing in African American Life Stephanie Y. Mitchem, Emilie M. Townes, 2008-08-30 Black Americans are more likely than Whites to die of cancer and heart disease more likely to get diabetes and asthma and less likely to get preventive care and screening Some of this greater morbidity results from education income level and environment as well as access to health care But the traditional medical model does not always allow for a more holistic approach that takes into account the body the mind the spirit the family and the community This book offers a better understanding of the varieties of religiously based approaches to healing and alternative models of healing and health found in Black communities in the United States Contributors address the communal aspects of faith and health and explore the contexts in which individuals make choices about their health the roles that institutions play in shaping these decisions and the practices individuals engage in seeking better health or coping with the health they have By paying attention to the role of faith spirit and health this book offers a fuller sense of the varieties of ways Black health and health care are perceived and addressed from an inter religious perspective Community and religion based initiatives have emerged as one key way to address the health challenges found in the African American community In cities such as Atlanta Baltimore Dallas and Oakland residents organize exercise groups teach one another how to cook with healthy ingredients and encourage neighbors to get regular checkups Churches have become key sites for health education screening and testing Another set of responses to the challenge of Black health and healthcare in the United States comes from those who emphasize the body as a whole body mind soul and spirit often drawing on religious traditions such as Islam and African based religions such as Spiritism Santeria Vodun aka Voodoo Candombl and others Understanding the issues and the various approaches is essential to combating the problems and this unique volume sheds light on areas often overlooked when considering the issues      *Dismantling Privilege: An Ethics of Accountability* Mary Elizabeth Hobgood, 2009-05-01 Mary Elizabeth Hobgood's bestselling *Dismantling Privilege: An Ethics of Accountability* reminds us the categories of gender race and class are not biological givens but social constructs used to suppress some groups while giving power to others diminishing the lives of all humankind and forestalling the possibility of a better society Hobgood's proposed solution a politics of accountability and solidarity resonates throughout this new edition which also includes a fresh introduction updated statistics and a concluding chapter targeting ecological crisis as the most pressing concern for accountable disciples Additionally the book looks to the political stirrings in Africa and Latin America for inspiration in building the movement      **Environmental Justice** Brendan Coolsaet, 2020-06-15 *Environmental Justice Key Issues* is the first textbook to offer a comprehensive and accessible overview of environmental justice one of the most dynamic fields in environmental politics scholarship The rapidly growing body of research in this area has brought about a proliferation of approaches as such the breadth and depth of the field can sometimes be a barrier for aspiring environmental justice students and scholars This book therefore is unique for its accessible style and innovative approach to exploring environmental justice Written by leading international experts from a variety of professional

geographic ethnic and disciplinary backgrounds its chapters combine authoritative commentary with real life cases Organised into four parts approaches issues actors and future directions the chapters help the reader to understand the foundations of the field including the principal concepts debates and historical milestones This volume also features sections with learning outcomes follow up questions references for further reading and vivid photographs to make it a useful teaching and learning tool Environmental Justice Key Issues is the ideal toolkit for junior researchers graduate students upper level undergraduates and anyone in need of a comprehensive introductory textbook on environmental justice

Toxic Injustice Susanna Rankin Bohme, 2015 The pesticide dibromochloropropane known as DBCP was developed by the chemical companies Dow and Shell in the 1950s to target wormlike soil dwelling creatures called nematodes Despite signs

that the chemical was dangerous it was widely used in U S agriculture and on Chiquita and Dole banana plantations in Central America In the late 1970s DBCP was linked to male sterility but an uneven regulatory process left many workers especially on Dole s banana farms exposed for years after health risks were known Susanna Rankin Bohme tells an intriguing multilayered history that spans fifty years highlighting the transnational reach of corporations and social justice movements Toxic Injustice links health inequalities and worker struggles as it charts how people excluded from workplace and legal protections have found ways to challenge power structures and seek justice from states and transnational corporations alike

*Toxic Tourism* Phaedra C. Pezzullo, 2007-02-04 Toxic Tourism is the first book length study of the environmental justice movement tourism and the links between race class and waste

**The Alchemy of Illness** Kat Duff, 1993 Illness is a universal experience There is no privilege that can make us immune to its touch We are taught to assume health illnesses being just temporary breakdowns in the well oiled machinery of the body But illness has its own geography its own laws and commandments At a time when the attention of the whole nation is focused on health care Kat Duff inquires into the nature and function of illness itself Duff a counselor in private practice in Taos New Mexico wrote this book out of her experience with chronic fatigue syndrome but what she has to say is applicable to every illness and every one of us For those who are sick this book offers solace and recognition For those who care for them either physically or emotionally it offers inspiration and compassion Finally this fresh perspective on healing reveals how every illness is a crucible that tries our mettle tests our limits and provides us with an unparalleled opportunity to integrate its lessons into our lives
