The Narrowing Alexandra Shaker, PhD,2025-03-04 An exploration of the connection between anxiety and the body by a clinical psychologist drawing

from the latest research alongside historical and cultural insights arguing that only through understanding anxiety's grasp on us can we transform it into resilience. Most of us are intimately familiar with anxiety and with its increasing hold on our minds, our hopes and plans, and our bodies. But how well do we really understand it and what can we do to transform it into something new into resilience or courage or creativity? In this extraordinary book, Dr. Alexandra Shaker, a clinical psychologist, takes us on a journey through the body from brain to blood to heart to guts to examine the connections between our emotional, psychological, and physical lives. She unravels what the body can teach us about anxiety and what we can learn from our long cultural history of the anxious impulse. Melding psychology, neuroscience, history, and literature, she considers why, despite all the checklists and scientific advancements, we are still struggling to outrun our oldest terrors and how a new approach focused on accepting anxiety as part of the human condition can help revolutionise our relationship with it.

Inside, readers will experience a fresh approach to quilting with two simplified carefree methods: sew flip and stack slice swap, where skills like matching seams and measuring are not important. At the end of construction, each piece is trimmed to a uniform size to facilitate mixing and matching into many quilted projects. While matching seams and other traditional quilting skills are unimportant for success with these instructions, the reader will still learn basic quilting techniques including strip piecing, curved piecing, foundation piecing, sewing on a bias, piece swapping, and more as they work through the blocks. A getting started section explains which rules are necessary and which are optional.
