## Un Rico Canibal:

**Crónicas De Un Canibal** Armando Fernández-Vargas, Pedromoya, 2013-05-08 CR NICA DE UN CANIBAL Sin psis Crónica de un Canibal es una historia de amor de dolor y de perseverancia Es la historia de Sebastián Mogollón un muchacho pobre que se enamora de Beatriz una muchacha rica de ciudad Panamá El inicio de la novela tiene lugar en ciudad Panamá a finales de la década de los ochenta durante el gobierno de Manuel Antonio Noriega Luego los personajes emigran a la ciudad de Nueva York y la novela se desarrolla en las zonas marginadas de Brooklyn y el bajo Manhattan Es diciembre del 1989 y además de todas las barreras sociales que se interponen en los planes de Sebastián para conquistar al amor de su vida parece que el destino conspira también contra l Sebastián desesperado por ganarse el cariño de Beatriz recuerda un embrujo de amor que le había enseñado un amigo Se ilusiona pensando que sin dudas Beatriz se rendir a ante ese sortilegio Para su sorpresa ella se escapa con otro de sus pretendientes a los Estados Unidos Sebastián cae en una depresión tal que sólo desea morir o dormir toda una vida no se suicida porque le falta la energía suficiente para levantarse de la cama y matarse Rehusa escuchar los consejos de sus padres y su hermana y sólo encuentra algún alivio a su desventura tocando la guitarra y escuchando canciones de boleros Cuando pensaba que dentro de l no quedaba más espacio para más sufrimiento su familia perece durante la invasión de Estados Unidos a Panamá de 1989 Sin Beatriz y sin su familia Sebastián pierde aún más la falta de interés por la vida Su amigo César Ramírez le recuerda que siempre hay razón para seguir viviendo que sólo se ha perdido una batalla pero no la guerra y lo convence para que emigre a Los Estados Unidos Los dos atraviesan la frontera Mexicano Estados Unidos y llegan a Williamsburg New York un sector plagado de drogas prostitución y violencia Sebastián había escuchado sobre los pesares que sufren los emigrantes en Nueva York pero nunca pensó vivirlos en carne propia Aprender un nuevo idioma adaptarse a nueva cultura sobrevivir al peligro de las calles del Williamsburg y a los inviernos de Nueva York sin embargo no lo desanimaron a seguir buscando el tesoro que escondía los muros de esa gran ciudad Con la paciencia de quien busca una aguja en un pajar y está dispuesto a remover cada hoja de heno hasta encontrarla o como el cazador furtivo que en medio del bosque arma una trampa y se sienta a esperar así Sebastián espera que el efecto de ese embrujo de amor haga su efecto en Beatriz El tema de la novela tiene cierta similitud con El Amor en los Tiempos del Cílera de Gabriel García Márquez Es la historia del mismo pobre que se enamora de la muchacha rica Sebastián Mogollón al igual que Florentino Ariza en El Amor en los Tiempos del Cílera se enferma gravemente de amor y ambos se refugian en la misma para consolarse La perseverancia y un amor que prevalece a través de los años es el tema principal de ambas novelas Pero a diferencia de Florentino Ariza Sebastián no pretende hacerse rico y famoso para poder conquistar a Beatriz l se conforma con mucho menos le es suficiente con ser un mesero de un restaurante y ver a través del cristal a la gente pasar y soñar con algún día ver a Beatriz pasar frente a l

condición de América Latina      The Menial Art of Cooking Sarah R. Graff, Enrique Rodríguez-Alegría, 2012-10-15 Although the archaeology of food has long played an integral role in our understanding of past cultures the archaeology of cooking is rarely integrated into models of the past The cooks who spent countless hours cooking and processing food are overlooked and the forgotten players in the daily lives of our ancestors The Menial Art of Cooking shows how cooking activities provide a window into other aspects of society and as such should be taken seriously as an aspect of social cultural political and economic life This book examines techniques and technologies of food preparation the spaces where food was cooked the relationship between cooking and changes in suprahousehold economies the religious and symbolic aspects of cooking the relationship between cooking and social identity and how examining foodways provides insight into social relations of production distribution and consumption Contributors use a wide variety of evidence including archaeological data archival research analysis of ceramics fauna botany glass artifacts stone tools murals and painted ceramics ethnographic analogy and the distribution of artifacts across space to identify signs of cooking and food processing left by ancient cooks The Menial Art of Cooking is the first archaeological volume focused on cooking and food preparation in prehistoric and historic settings around the world and will interest archaeologists social anthropologists sociologists and other scholars studying cooking and food preparation or subsistence      **Biodiversity and the Law** Charles R. McManis, 2012-05-04 How do we promote global economic development while simultaneously preserving local biological and cultural diversity This authoritative volume written by leading legal experts and biological and social scientists from around the world aims to address this question in all of its complexity The first part of the book focuses on biodiversity and examines what we are losing why and what is to be done The second part addresses biotechnology and looks at whether it is part of the solution or part of the problem or perhaps both The third section examines traditional knowledge explains what it is and how if at all it should be protected The fourth and final part looks at ethnobotany and bioprospecting and offers practical lessons from the vast and diverse experiences of the contributors      Ethnoecology Ted L. Gragson, Ben G. Blount, 1999 Scholars studying the ecology of specific areas often fail to take into account the presence of humans in those environments People not only are fundamental components of an ecosystem but possess a unique understanding of its nature This book examines subjects ranging from pastoralism to the use of medicinal plants to show that understanding the knowledge system of any people is essential to understanding their relation to their environment Using cases from the American Southwest and Pacific Northwest the Highland Maya Region of Central America and the Lowland and Andean regions of South America the contributors examine the relation of humans and environment within the context of each local system's beliefs values and knowledge All emphasize the practical and cultural significance of indigenous knowledge of the environment and the importance of comparing this knowledge to scientific understanding prior to initiating development or conservation programs They also contribute to a theoretical approach that allows findings to be applied across studies regardless of ethnographic differences      **Orinoco -**
