Unknown Crusader Castles:

Unknown Crusader Castles Kristian Molin,2001-04-01 The capture of Jerusalem by the First Crusade in 1099 signalled the beginning of an armed struggle in Palestine and throughout the Eastern Mediterranean which lasted until the 15th century It was a war dominated by the building securing and besieging of castles rather than by pitched battles Kristian Molin covers the military history of the crusades on a wider geographical scale than previous historians taking in Armenia Cyprus and Greece as well as the Holy Land He also shows the role of castles as administrative judicial and social centres in times of peace as well as in war Unknown Crusader Castles provides a fresh perspective on the history of the crusades

Crusader Castles in Cyprus, Greece and the Aegean 1191-1571 David Nicolle,2013-05-20 This superbly illustrated book explores these unique castles design development and fate in detail documenting the rich architectural heritage of this region and its complex history

Crusader Landscapes in the Medieval Levant ,2016-08-20 Written to celebrate the prestigious career of Professor Denys Pringle this collection of articles produced by many of the leading archaeologists and historians in the field of crusades studies offers a compilation of pioneering scholarship on recent studies on the Latin East The geographical breadth of topics discussed in each chapter reflects both Pringle s international collaborations and research interests and the wide development of scholarly interest in the subject With a concentration on the areas corresponding to the crusader states during the twelfth and thirteenth centuries the articles also offer research into the neighbouring areas of Cyprus Anatolia Greece and the West and the legacy of the crusader period there with results from recent archaeological fieldwork in the Middle East

Crusader Castles Robin Fedden,1950 **War** DK Publishing,2009-10-01 War has been central to the rise and fall of civilizations since the dawn of time The history of warfare first emerges from legend in Mesopotamia the cradle of civilization around 3 000 years before the birth of Christ The first armies that we know about fought in Sumeria Ancient Egypt and Syria From these first battles fought with spears or axes on horseback or on foot War traces the campaigns and conflicts that have shaped world history and examines the evolution of military tactics and technology The story of the development from these primitive battles to the global conflicts of the 20th century and the modern War on Terror is the story of humanity itself reflecting the same political cultural and technological forces that have defined human history From longbows to laser guided missiles from chariots to jet aircraft and from Samurai warriors to SAS soldiers War provides the definitive visual chronicle of this intense brutal and often heroic tale War combines a coherent and compelling spread by spread historical narrative with a wealth of supporting features on weapons and technology strategy and tactics the experience of war and history s fighting elites to recount the epic 5 000 year story of warfare and combat through the ages

A Crusader's Fortress in Palestine Metropolitan Museum of Art (New York, N.Y.),Bashford Dean,1927 *Crusader castles; a brief study in the military architecture of the crusades* Henry Romilly Fedden,1950 **The Doctor** ,1909 *Crusader castles of the near east* William H. Hall, *Fighting for the Faith* David

Nicolle,2007 Fighting between Christians and Muslims in the medieval period is often seen in the narrow context of the battle for the Holy Land Other points of conflict tend to be ignored But as David Nicolle s thought provoking survey shows the religions clashed across the medieval world in the Mediterranean and the Iberian peninsula in the Near East in Central Asia India the Balkans Anatolia Russia the Baltic and Africa Over 500 years the struggle in each theatre of conflict had its own character methods of warfare differed and developed in different ways and were influenced by local traditions and circumstances And these campaigns were not waged solely against Christian or Islamic enemies but against pagan non Christian or non Islamic peoples As he tells the story of Crusade and Jihad and describes the organization and tactics of the armies involved David Nicolle opens up a new understanding of the phenomenon of holy war *Forthcoming Books* Rose Army,2001-06 **Byzantium and the Crusades** Jonathan Harris,2003 The first great city the crusaders came to in 1089 was not Jerusalem but Constantinople the capital of the Byzantine empire Almost as much as Jerusalem itself Constantinople was the key to the foundation survival and ultimate eclipse of the crusading kingdom The Byzantines had developed an ideology over seven hundred years which placed Constantinople rather than Rome or Jerusalem at the centre of the world The attitudes of its rulers reflected this priority and led to tensions with the crusaders over military and diplomatic strategy At the same time the riches and sophistication of the great city made a lasting impression on the crusaders even though they found Byzantine society alien and remote In the end the lure of the city s wealth was irresistibly fatal to the claims of Christian unity In 1204 the Fourth Crusade under the Venetian doge Enrico Dandolo captured and sacked Constantinople signalling the effective end of almost a thousand years of Byzantine dominance in the east **Geographic News Bulletins** ,1930 **Crusader Castles** Thomas Edward Lawrence,Denys Pringle,1988 A new edition of the classic text on Crusader castles and their relation to the military architecture of the West written by T E Lawrence of Arabia while still an undergraduate at Oxford in 1910 At the end of the nineteenth century it was generally assumed that these castles were the prototype for the massive buildings erected in Northern France and England in the twelfth and thirteenth centuries Lawrence opposed this view unlike most earlier writers on the subject he was already familiar with castles in England Wales France and Syria as a result of a series of expeditions made on bicycle or foot culminating in 1909 in a three and a half month walking tour of the Levant Although his thesis was to guarantee him a first class degree in Modern History its impact on scholarship was slower to take effect The typescript remained virtually unknown until 1936 a year after the author s death when it appeared in a limited edition of the Golden Cockerel Press Crusader Castles is now offered to a wider readership The original text is reproduced without alteration but a selection of the pencilled notes which Lawrence added to the typescript in preparation for a revision that was never made are included as footnotes together with additional editorial notes and bibliographical details Lawrence s work is also assessed in the light of seventy five years of subsequent research in an introduction prepared by Denys Pringle Methodist Magazine ,1897 **Radio Times** ,1961 **Index Islamicus** ,2007
