Helen Russell Wright

Unmarried Mothers:

On Our Own Melissa Ludtke, 1999-03-31 Ludtke brings the voices of women having children on their own into a public debate from which these voices have been conspicuously absent Interweaving their voices with her own savvy and intuitive commentary she has written a vitally important book Carol Gilligan author of *In a Different Voice* **What Becomes of the Unmarried Mother?** Alberta Sylvia Boomhower Guibord, Ida R. Parker, 1922 *A Study of Unmarried Mothers who Kept Their Babies* Social Welfare Research, Inc, 1963 Mother and Baby Homes Jill Nicholson, Lady Williams, 1968 A Follow-up Study of Thirty Eight Single Unmarried Mothers Rose Migdal, 1944 **Helping Unmarried Mothers** Rose Bernstein, 1971 **Unmarried Mothers** Clark E. Vincent, 1961 The Care of the Unmarried Mother Robert South Barrett, 1929 *The Unmarried Mother* Percy Gamble Kammerer, 1918 **Misconceptions** Anne Lorene Chambers, 2007-01-01 In 1921 despite the passing of legislation intended to ease the consequences of illegitimacy for children Children of Unmarried Parents Act reformers in Ontario made no effort to improve the status of unwed mothers Furthermore the reforms that were passed served as models for legislation in other provinces and even in some American states institutionalizing in essence the prejudices evident throughout Until now historians have not sufficiently studied these measures resulting in the marginalization of unwed mothers as historical subjects In *Misconceptions* Lori Chambers seeks to redress this oversight By way of analysis and careful critique Chambers shows that the solutions to unwed pregnancy promoted in the reforms of 1921 were themselves based upon misconceptions The book also explores the experiences of unwed mothers who were subjected to the legislation of the time thus shedding an invaluable light on these formerly ignored subjects Ultimately *Misconceptions* argues that child welfare measures which simultaneously seek to rescue children and punish errant women will not and cannot succeed in alleviating child or maternal poverty *White Unwed Mother ; The adoption mandate in postwar Canada* Valerie J Andrews, 2018-11-01 In postwar Canada having a child out of wedlock invariably meant being subject to the adoption mandate Andrews describes the mandate as a process of interrelated institutional power systems which together with socio cultural norms ideals of gender heteronormativity and emerging sociological and psychoanalytic theories created historically unique conditions in the post WWII decades wherein the white unmarried mother was systematically separated from her baby by means of adoption This volume uncovers and substantiates evidence of the mandate ultimately finding that at least 350 000 unmarried mothers in Canada were impacted *Crime, Punishment and the Search for Order in Ireland* Shane Kilcommins, 2004 **Who are These Unmarried Mothers? A Study of 50 Cases of Unmarried Motherhood** Marion E. Murphy, Catherine Tidd, 1950 Unmarried Mothers at the New Haven Hospital Elizabeth V. Parker, 1947 **Single Mothers In International Context** Simon Duncan, Rosalind Edwards, 2013-11-05 Single mothers caring for dependent children are an important and increasing population in industrialized countries In some single mothers are seen primarily as mothers and few have paid work in others they are

regarded as workers and most have paid work and sometimes they are seen as an uneasy combination of the two with varying proportions taking up paid work This edited collection explores these variations focusing on the interaction between dominant discourses around single motherhood state policies towards single mothers the structure of the labour market at national and local levels and neighbourhood supports and constraints

Single by Chance, Mothers by Choice Rosanna Hertz, 2006-10-01

A remarkable number of women today are taking the daunting step of having children outside of marriage In *Single By Chance Mothers By Choice* Rosanna Hertz offers the first full scale account of this fast growing phenomenon revealing why these middle class women took this unorthodox path and how they have managed to make single parenthood work for them Hertz interviewed 65 women ranging from physicians and financial analysts to social workers teachers and secretaries women who speak candidly about how they manage their lives and families as single mothers What Hertz discovers are not ideologues but reluctant revolutionaries women who whether straight or gay struggle to conform to the conventional definitions of mother child and family Having tossed out the rulebook in order to become mothers they nonetheless adhere to time honored rules about child rearing As they tell their stories they shed light on their paths to motherhood describing how they summoned up the courage to pursue their dream how they broke the news to parents siblings friends and co workers how they went about buying sperm from fertility banks or adopting children of different races They recount how their personal and social histories intersected to enable them to pursue their dream of motherhood and how they navigate daily life What does it mean to be single in terms of romance and parenting How do women juggle earning a paycheck with parenting What creative ways have women devised to shore up these families How do they incorporate men into their child centered families This book provides concrete informative answers to all these questions A unique window on the future of the family this book offers a gold mine of insight and reassurance for any woman contemplating this rewarding if unconventional step

Out of Wedlock Larry Wu, Barbara Wolfe, 2001-07-12

Today one third of all American babies are born to unmarried mothers a startling statistic that has prompted national concern about the consequences for women children and society Indeed the debate about welfare and the overhaul of the federal welfare program for single mothers was partially motivated by the desire to reduce out of wedlock births Although the proportion of births to unwed mothers has stopped climbing for the first time since the 1960s it has not decreased and recent trends are too complex to attribute solely to policy interventions What are these trends and how do they differ across groups Are they peculiar to the United States or rooted in more widespread social forces Do children of unmarried mothers face greater life challenges and if so what can be done to help them *Out of Wedlock* investigates these questions marshalling sociologists demographers and economists to review the state of current research and to provide both empirical information and critical analyses The conflicting data on

nonmarital fertility give rise to a host of vexing theoretical methodological and empirical issues some of which researchers are only beginning to address Out of Wedlock breaks important new ground bringing clarity to the data and examining policies that may benefit these particularly vulnerable children
