## **Unsanctifying Human Life:**

**Unsanctifying Human Life** Helga Kuhse, 2002-02-01 *Unsanctifying Human Life* offers a collection of Singer's best and most challenging articles from 1971 to the present. The book includes early critiques of various approaches to philosophy and the role of philosophers followed by controversial works on the moral status of animals, infanticide, euthanasia, the allocation of scarce health care resources, embryo experimentation, environmental responsibility, and reflections on how we should live.

**Divided We Stand** John Harmon McElroy, 2006 American culture is on life support. Beginning in the 1960s a generation of activists twisted and bent long held American beliefs into an ideology of blame and political correctness, weakening and disrupting the nation. As John Harmon McElroy powerfully demonstrates, the counter culture has become pervasive with devastating results. He shows how we neglect to educate our children and call it teaching self-esteem, how we assail the worth of America and call it respecting diversity, and how we refuse to take responsibility for our lives and call it social justice. In tracing the roots and impact of the counter culture's rejection of historical American beliefs, McElroy powerfully defends the bedrock principles of responsible individualism, practical improvement, and equal freedom under God. **Strokes of Luck**

Gerald Lang, 2021 Gerald Lang examines the role of luck in moral and political philosophy. He argues that luck plays a positive role in determining the moral character of acts and also of agents. In political questions of justice, he argues against attempts to neutralise luck and in favour of an alternative approach that emphasises fairness. **Catholic Moral**

**Philosophy in Practice & Theory** Bernard G. Prusak, 2016 *John Paul II on the Vulnerable* Jeffrey Tranzillo, 2013 Pope John Paul II was a great defender of truly vulnerable human beings throughout his life, affirming their personhood consistently and powerfully. In *John Paul II on the Vulnerable* Jeffrey Tranzillo provides a lucid introduction to John Paul II's philosophical and theological understanding of the human person. Unlike other writings on the topic, Tranzillo's explicit aim is to highlight an aspect of John Paul's work that has been largely neglected until now. He shows convincingly that John Paul's seminal reflections on the human being as a personal agent progressed over time to include human beings at even the most vulnerable stages of development or decline. With this advance in thought, the pontiff began to declare eloquently that the vulnerable are capable of contributing to and enriching the human community through their activity. An engaging overview of John Paul II's life, thought, and work introduces the book and provides readers with helpful background material. It shows that John Paul's interest in and lofty regard for the human person is rooted in his strong Catholic faith and in the extraordinary life experiences that he interpreted in its light. Following this is an examination of his principal works on the human person, emphasizing their implications for vulnerable human beings as persons and actors. Tranzillo considers this theme in the light of selected Christological texts of John Paul II and then reflects on John Paul's portrayal of the vulnerable in his social encyclicals and *Evangelium Vitae*. A final chapter develops the anthropological underpinnings of John Paul's thought on the radically vulnerable and their personal agency. ABOUT THE AUTHOR Jeffrey Tranzillo received his Ph.D. in systematic

theology from the Catholic University of America and has taught at both the undergraduate and graduate levels PRAISE FOR THE BOOK This is a masterful work one of the very best books I have read exploring the thought of John Paul II Jeffrey Tranzillo provides a compelling and theologically rich account of John Paul II s Christian anthropology showing how it grounds his understanding of the inalienable dignity of every human being particularly the vulnerable Elements of John Paul II s papacy may fade with time but this extraordinary book keeps the pope s enduring philosophical and theological insights glowingly alive Thomas G Guarino Professor of Systematic Theology Seton Hall University **Peter Singer Under Fire** Jeffrey A.
