Unstately Power:

Unstately Power Lynn T. White, 1998 **Mao** Lee Feigon, 2003-07-24 Mr Feigon argues that the movements for which Mao is almost universally condemned today the Great Leap Forward and especially the Cultural Revolution were in many ways beneficial for the Chinese people While not glossing over Mao's mistakes he contends that the Chinese leader should be largely praised for many of his later efforts In reevaluating Mao's contributions this interpretive study reverses the curve of criticism Feigon performs a service by reclaiming the historical context of Mao's crazed era He has written a concise work that forces the reader to recall the circumstances that abetted Mao's reign Far Eastern Economic Review *Regulating Land and Pollution in China* Benjamin van Rooij, 2006 Annotation Many of China's rivers and lakes are strongly polluted the air in cities is amongst the worst in the world while some have warned that if the country is not careful it may soon have insufficient arable land to feed its population This book looks at why the protection of natural resources through stricter legislation and more stringent law enforcement has been so difficult It does so through a combination of a local case with comparative and theoretical insights about lawmaking compliance and enforcement It offers a unique view on how law functions in the world's largest legal system and how such law interacts with the social economic and political circumstances at hand This book offers an incomparable body of empirical and theoretical knowledge for those interested in how law functions in China as well as those interested in the workings of regulatory lawmaking compliance and enforcement in a comparative perspective This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789087280130>

Democratization in China, Korea and Southeast Asia? Kate Xiao Zhou, Shelley Rigger, Lynn T. White III, 2014-01-21 Rapid economic pluralization in East Asia has empowered local and medial groups and with this change comes the need to rethink usual notions regarding ways in which democracies emerge or citizens gain more power Careful examination of current developments in China Korea and Southeast Asia show a need for expansion of our understandings of democracy and democratization This book challenges traditional ways in which political regimes in local as well as national polities are conceived and labeled It shows from Asian experiences that democracy and its precursors come in more forms than most liberals have yet imagined In reviewing recent experiences of countries across East Asia these chapters show that actual democracies and ostensible democratizations there are less like those in the West than the surprisingly consensual and standard political science of democratization suggests This book first examines the extreme variation of democracy's meaning in many Asian states that hold contested elections South Korea Taiwan Indonesia Malaysia the Philippines and Thailand Then it focuses on China It analyzes a range of grassroots forces driving political change in the People's Republic and it finds both accelerators and brakes in China's political reform process The contributors show that models for China's political future exist both within and outside the PRC including in other East Asian states in localities and sectors that already are pushing the limits of the powerful but no longer all powerful Chinese party state With contributions from leading

academics in the field Democratization in China Korea and Southeast Asia will be of interest to students and scholars of Asian politics comparative politics and democratization more broadly Philippine Politics Lynn T. White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture *Handbook of Contemporary Behavioral Economics* Morris Altman,2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of how economic decisions are actually made **Unstately Power** Lynn T. White (III.),1998 *China and her biographical dimensions* Christina Neder,Heiner Roetz,Ines-Susanne Schilling,2001 Das Buch ist dem Andenken des 1999 verstorbenen renommierten Bochumer Sinologen Helmut Martin gewidmet Namhafte Chinawissenschaftler aus der ganzen Welt spannen in ihren Beiträgen einen Bogen der das umfangreiche ŷuvre der wissenschaftlichen Arbeit Helmut Martins widerspiegelt Nach einer persönlich gehaltenen Einföhrung zu Leben und Werk Helmut Martins konzentriert sich der Themenschwerpunkt des Bandes auf auto biographische Fragestellungen in Literatur Wissenschaft Politik und Wirtschaft des traditionellen und des modernen Chinas Die chinesische und taiwanesische Literatur des 20 Jahrhunderts sind hierbei besonders ins Blickfeld gerückt Aber auch zu linguistischen Fragestellungen und den Themen Übersetzung Chinarezeption und perzeption sind eine Reihe wichtiger Aufsätze enthalten Im Anhang des Buches findet sich ein Gesamtverzeichnis der Schriften von und über Helmut Martin Crouching Dragon, Hidden Tiger Prem Shankar Jha,2009-12-15 The media is feeding on the boastful self confidence of a newly invigorated entrepreneurial class in India and on the growing irritation with the Indian upstart in the Chinese leadership To say these two countries will dominate the global economy in 50 years if they stay on their present

trajectories is undoubtedly true But to take for granted that they will succeed in doing so is naive Both countries are in the early stages of transformation from pre capitalist to capitalist societies and this transition is by its very nature jarring The transition closes old avenues of progress and opens new ones creating new winners and new losers by the hundreds of thousands The faster the rate of economic change the less time given to existing social institutions to adapt and the greater therefore is the propensity for violent change This book examines the interaction of economic with political and social change in China and India as they have progressed down the road to capitalism It examines the social and political conflicts that the market has unleashed and the success and failure of the countries in trying to contain it **Report** University of Hong Kong. Centre of Asian Studies,1996 Beyond the Party-state Michael Korzec,2004 *Unstately Power* Lynn T. White, III,2015-06-03 A critique of America s flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews The Chinese Economy ,2003 China Review International ,1999 **The Journal of the Royal Anthropological Institute** ,2004 Articles on all aspects of anthropology *Forthcoming Books* Rose Arny,1997 **AccessAsia** ,1997 *The Political Capacity of Beijing Still Matters* Heung-Kyu Kim,2002 This dissertation seeks to understand the driving forces behind fiscal reforms in China in the 1980s and 1990s as well as the specific conditions that shaped reform outcomes It integrates policy process including but not limited to elite politics institution building and policy substance in three major fiscal reforms the replacement of profit by tax reform of 1983 1985 the fiscal contract system of 1988 and the tax sharing system of 1994 **Returning Shares to the People?** Mary Comerford Cooper,2002 **Choice** ,2001
