Automatic Programming Applied to VLSI CAD Software: A Case Study Dorothy E. Setliff, Rob A. Rutenbar, 2012-12-06 This book and the research it describes resulted from a simple observation we made sometime in 1986 Put simply we noticed that many VLSI design tools looked alike That is at least at the overall software architecture level the algorithms and data structures required to solve problem X looked much like those required to solve problem X Unfortunately this resemblance is often of little help in actually writing the software for problem X given the software for problem X In the VLSI CAD world technology changes rapidly enough that design software must continually strive to keep up And of course VLSI design software and engineering design software in general is often exquisitely sensitive to some aspects of the domain technology in which it operates Modest changes in functionality have an unfortunate tendency to require substantial and time consuming internal software modifications Now observing that large engineering software systems are technology dependent is not particularly clever However we believe that our approach to xiv Preface dealing with this problem took an interesting new direction We chose to investigate the extent to which automatic programming ideas could be used to synthesize such software systems from high level specifications This book is one of the results of that effort

Day, 2013-11-11 It has been both a pleasure and an honor to edit this book The pleasure has been in interacting with the gifted authors who wrote the chapters for this volume and the honor has been in knowing that the book is dedicated to a great man and a brilliant psychologist Daniel E Berlyne All the contributors to this book have been touched at some time by Dan Berlyne and his ideas Whether as his teachers his colleagues his peers his students or his friends and arguing partners we have all felt his presence and been improved by it The list of contributors to this volume is large and could have been much larger for a number of people in fact contacted me for the opportunity to contribute when they heard about the purpose of this book It is also an

international list for Dan Berlyne's contacts were international. The diversity in content and style is also intentional. The authors were invited to contribute an original paper in the field in which they are presently engaged, whether theoretical or a report of empirical work, and to indicate the contribution that Dan Berlyne had made to their work. As the reader will note, contributions range from personal and contact in a laboratory to ideas that elicit controversy, argument, and intensive research. Daniel Ellis Berlyne was born in Selford, England, a suburb of Manchester, in 1924 and died in Toronto, Canada, on November 2, 1976. *Famous Plays with a Discourse by Way of Prologue on the Playhouses of the Restoration* Joseph Fitzgerald Molloy, 1886 **Billboard Music Week**, 1946-12 *Catalog of Copyright Entries, Third Series* Library of Congress.
