Women Warriors Pamela D. Toler, 2019-02-26 Discover the incredible stories of warrior women throughout history from Vikings and African queens to cross dressing military doctors and WWII fighter pilots Who says women don't go to war These exhilarating accounts finally put to rest the tired old arguments that only men are fit for combat Adrienne Mayor author of *The Amazons* The woman warrior is always cast as an anomaly Joan of Arc not GI Jane But women it turns out have always gone to war In this fascinating and lively world history Pamela Toler not only introduces us to women who took up arms she also shows why they did it and what happened when they stepped out of their traditional female roles to take on other identities These are the stories of women who fought because they wanted to because they had to or because they could Spanning from ancient history to the 20th century you'll meet a cast of powerful women that includes Tomyris ruler of the Massagetae who killed Cyrus the Great of Persia when he sought to invade her lands Amina of Hausa the West African ruler who led her warriors in a campaign of territorial expansion for more than 30 years Boudica who led the Celtic tribes of Britain into a massive rebellion against the Roman Empire to avenge the rapes of her daughters The Trung Sisters who led an untrained army of 80 000 troops to drive the Chinese empire out of Vietnam The Jōshigun a group of 30 combat trained Japanese women who fought against the forces of the Meiji emperor in the late 19th century Lakshmi Bai Rani of Jhansi who was regarded as the bravest and best military leader in the 1857 Indian Mutiny against British rule Maria Bochkareva who commanded Russia's first all female battalion the First Women's Battalion of Death during WWII Buffalo Calf Road Woman the Cheyenne warrior who knocked General Custer off his horse at the Battle of Little Bighorn Juana Azurduy de Padilla a mestiza warrior who fought in at least 16 major battles against colonizers of Latin America and who is a national hero in Bolivia and Argentina today By considering the ways in which their presence has been erased from history Toler reveals that women have always fought not in spite of being women but because they are women *Battle Cries and Lullabies* Linda Grant De Pauw, 2014-07-11 IN THIS GROUNDBREAKING WORK covering thousands of years of history and spanning the globe Linda Grant De Pauw explores the varied roles women have played in war De Pauw depicts women as victims and as warriors as nurses spies sex workers and wives and mothers of soldiers as warrior queens leading armies into battle and as baggage carriers marching in the rear Her historical survey provides context for current public policy debates over women in the military *Women in the War--for the Final Push to Victory* United States. Office of War Information, 1944 [They Fought Like Demons](#) DeAnne Blanton, Lauren Cook Wike, 2002-09-01 Popular images of women during the American Civil War include self sacrificing nurses romantic spies and brave ladies maintaining hearth and home in the absence of their men However as DeAnne Blanton and Lauren M Cook show in their remarkable new study that conventional picture does not tell the entire story Hundreds of women assumed male aliases disguised themselves in men's uniforms and charged into battle as Union and Confederate soldiers facing down not only the guns of the adversary but also the gender prejudices of society They

Fought Like Demons is the first book to fully explore and explain these women their experiences as combatants and the controversial issues surrounding their military service Relying on more than a decade of research in primary sources Blanton and Cook document over 240 women in uniform and find that their reasons for fighting mirrored those of men patriotism honor heritage and a desire for excitement Some enlisted to remain with husbands or brothers while others had dressed as men before the war Some so enjoyed being freed from traditional women s roles that they continued their masquerade well after 1865 The authors describe how Yankee and Rebel women soldiers eluded detection some for many years and even merited promotion Their comrades often did not discover the deception until the young boy in their company was wounded killed or gave birth In addition to examining the details of everyday military life and the harsh challenges of warfare for these women which included injury capture and imprisonment Blanton and Cook discuss the female warrior as an icon in nineteenth century popular culture and why twentieth century historians and society ignored women soldiers contributions Shattering the negative assumptions long held about Civil War distaff soldiers this sophisticated and dynamic work sheds much needed light on an unusual and overlooked facet of the Civil War experience

USAF,2008-11-03 Women have always participated in armed conflict most often as active supporters of the armies they have followed Some women usually the wives of soldiers served as nurses laundresses cooks and seamstresses Other women chose active participation in battle including the famed Molly Pitcher Mary Hays McCauly earned this moniker during the Battle of Monmouth in 1778 when she provided pitchers of water and medical care to members of the Continental Army fighting the British After shrapnel struck her husband McCauly took up his position as a cannoneer so that the artillery crew could continue to fight Gen George Washington rewarded her bravery by making her a noncommissioned officer The story of Molly Pitcher symbolizes the realities of women and war War has always affected women to some capacity despite civilized society s best attempts to protect the gentler sex from war s brutality Yet despite Molly Pitcher s successes on the battlefield which included picking up an injured soldier to save him from charging British soldiers American culture has traditionally deprecated female participation in war In most cultures even today a woman engaged in combat operations represented an anathema such as the reactions to Jeanne d Arc by political and religious leaders History therefore has either completely dismissed female contributions and participation in armed conflicts or relegated their participation to scandalous supporting roles such as prostitutes or pillow friendly spies The reality is women have made significant contributions in military conflicts and their role continues to expand in the modern era This paper reviews four case studies that demonstrate the variety of ways women have participated in modern armed conflict and explores whether current US laws and policies excluding women from combat remain valid or need to be amended Each case study examines three principal facets of female participation in combat context motivations and inspirations and the actual contributions made by these women in combat operations Two case studies one on World War II Soviet pilots and the other on modern Americans follow the more traditional explanation of armed conflict and focus on women integrated into military organizations involved in wars The other two case studies including one on female resistance fighters in World War II Europe and another on female terrorists and insurgents represent the asymmetric aspects female participation often provides during conflicts The first case study examines the women involved in resistance operations throughout Nazi occupied Europe Contextually many of the women presented in this case study had experienced or had close family to live through World War I That experience evoked strong emotional motivations for many of the women profiled and often resulted in intense hatred of their enemies the German Nazis Due to the loss of family members and friends and with the emotions provoked by the occupation many women believed that they had no other choice but to resist In their minds resistance represented defense of their families friends culture and nations While most of these women began their resistance activities as lookouts and messengers many went on to conduct insurgent paramilitary operations against the Nazi occupying forces
