

Women

Foreign Policy & National Security

Despite the progress of the last few decades, the world's female population remains grossly underrepresented in politics, foreign policy, and national security.

In 2000, the UN Security Council adopted Resolution 1325, reaffirming the important role of women in the prevention and resolution of conflicts, peace negotiations, peace-building, post-conflict reconstruction and disaster relief, and emphasizing the importance of their equal participation and full involvement in all efforts for the maintenance and promotion of peace and security. Resolution 1325 urges all actors to increase the participation of women and incorporate gender perspectives in all United Nations peace and security efforts.

Women In Foreign Policy:

Women's Perspectives on U.S. Foreign Policy, 1988 *'Guilty Women', Foreign Policy, and Appeasement in Inter-War Britain* Julie V. Gottlieb, 2016-02-07 British women were deeply invested in foreign policy between the wars This study casts new light on the turn to international affairs in feminist politics the gendered representation and experience of the Munich Crisis and the profound impression made by female public opinion on PM Neville Chamberlain in his negotiations with the dictators

Papers relating to the foreign relations of the United States, 1889 Foreign Affairs Edmund Dene Morel, Helena Maria Swanwick, 1929 *Women in Foreign Policy* Nancy E. McGlen, Meredith Reid Sarkees, 2018-12-19 Originally published in 1993 this title provides a unique insight into the challenges faced by the women who shaped United States foreign policy at the time The authors examine the Gender Gap in beliefs between men and women in the State and Defense departments Highlighted by interviews with ten leading women in the field including Jeane Kirkpatrick and Rozanne Ridgway then the two highest ranking women in foreign policy the book provides an intimate glimpse into the making of foreign policy during the Reagan administration Based on 79 interviews with women and men senior executives in the departments of State and Defense this title poses a number of key questions Who are the women in the State and Defense Departments and how do their background and lifestyle choices compare with those of their male colleagues What problems do they confront in an attempt to influence policy in the international arena Do the women on the inside make a difference in how policy is formulated or how the departments are managed Are women by nature more peaceful than men Will they alter the face of foreign policy Or are they more likely to hold the same views as men This title provided an important insight into these questions and would have been provocative reading at the time of publication Annals of the American Academy of Political and Social Science, 1929 Proceedings of the Institute of International Relations Institute of International Relations, 1927

Women's International Network News Women's International Network, 1975 *The National Review*, 1928 *Women as Foreign Policy Leaders* Sylvia Bashevkin, 2018-08-02 What difference does gender make to foreign diplomacy What do we know about women's participation as decision makers in international affairs Is it fair to assume as many observers do that female elites will mirror the relatively pacifist preferences of women in the general public as well as the claims of progressive feminist movements And of particular importance to this book what consequences follow from the appointment of firsts to these posts Inspired by recent work in the field of feminist diplomatic history this book offers the first comparative examination of women's presence in senior national security positions in the United States executive branch Sylvia Bashevkin looks at four high profile appointees in the United States since 1980 Jeane Kirkpatrick during the Reagan years Madeleine Albright in the Clinton era Condoleezza Rice during the George W Bush presidency and Hillary Rodham Clinton in the first Obama mandate Bashevkin explores the extent to which each of these women was able to fully participate in a domain long

dominated by men focusing in particular on the extent to which each shaped foreign policy in meaningful ways She looks particularly at two specific phenomena first the influence of female decision makers notably their ability to make measurable difference to the understanding and practice of national security policy and second leaders actions with respect to matters of war and women s rights The track records of these four women reveal not just a consistent willingness to pursue muscular aggressive approaches to international relations but also widely divergent views about feminism Women as Foreign Policy Leaders shows how Kirkpatrick Albright Rice and Clinton staked out their presence on the international scene and provided a crucial antidote to the silencing of women s voices in global politics
