The Cold July:

John le Carré and the Cold War Toby Manning, 2018-01-25 John le Carré and the Cold War explores the historical contexts and political implications of le Carré's major Cold War novels. The first in-depth study of le Carré this century, this book analyses his work in light of key topics in 20th-century history including containment of Communism, decolonization, the Berlin Wall, the Cuban missile crisis, the Cambridge spy ring, the Vietnam War, the 70s oil crisis, and Thatcherism. Examining *The Spy Who Came in from the Cold* (1963), *Tinker Tailor Soldier Spy* (1974), *Smiley's People* (1979), and other novels, this book offers an illuminating picture of Cold War Britain while situating le Carré's work alongside that of George Orwell, Graham Greene, and Ian Fleming. Providing a valuable contribution to contemporary understandings of both British spy fiction and post-war fiction, Toby Manning challenges the critical consensus to reveal a considerably less radical writer than is conventionally presented.

Congress and the Cold War Robert David Johnson, 2005-11-21 The first historical interpretation of the congressional response to the entire Cold War. Using a wide variety of sources, including several manuscript collections opened specifically for this study, the book challenges the popular and scholarly image of a weak Cold War Congress in which the unbalanced relationship between the legislative and executive branches culminated in the escalation of the US commitment in Vietnam, which in turn paved the way for a congressional resurgence best symbolized by the passage of the War Powers Act in 1973. Instead, understanding the congressional response to the Cold War requires a more flexible conception of the congressional role in foreign policy, focused on three facets of legislative power: the use of spending measures, the internal workings of a Congress increasingly dominated by subcommittees, and the ability of individual legislators to affect foreign affairs by changing the way that policymakers and the public considered international questions.

Mitterrand, the End of the Cold War, and German Unification Frédéric Bozo, 2009 This book explores the role of France in the events leading up to the end of the Cold War and German unification. The Non-Aligned Movement and the Cold War Natasa Miskovic, Harald Fischer-Tiné, Nada Boskowska, 2014-04-16 The idea of non-alignment and peaceful coexistence was not new when Yugoslavia hosted the Belgrade Summit of the Non-Aligned in September 1961. Freedom activists from the colonies in Asia, Africa, and South America had been discussing such issues for decades already, but this long-lasting context is usually forgotten in political and historical assessments of the Non-Aligned Movement. This book puts the Non-Aligned Movement into its wider historical context and sheds light on the long-term connections and entanglements of the Afro-Asian world. It assembles scholars from differing fields of research such as Asian Studies, Eastern European and Southeast European History, Cold War Studies, Middle Eastern Studies, and International Relations. In doing so, this volume looks back to the ideological beginnings of the concept of peaceful coexistence at the time of the anticolonial movements and at the multi

faceted challenges of foreign policy the former freedom fighters faced when they established their own decolonized states It analyses the crucial role Yugoslav president Tito played in his determination to keep his country out of the blocs and finally examines the main achievement of the Non Aligned Movement to give subordinate states of formerly subaltern peoples a voice in the international system An innovative look at the Non Aligned Movement with a strong historical component the book will be of great interest to academics working in the field of International Affairs international history of the 20th century the Cold War Race Relations as well as scholars interested in Asian African and Eastern European history
