PT Brinkman

The Root Of The Evil:

The First Fifty Discourses from the Collection of the Medium-length Discourses of Gotama the Buddha, Freely Rendered and Abridged from the Pāli Silāchāra (Bhikkhu.),1912 **Interpreting Proverbs 11:18-31, Psalm 73, and Ecclesiastes 9:1-12 in Light Of, and as a Response To, Thai Buddhist Interpretations** Kari Storstein Haug,2012-03-19 This book

argues that an approach to Buddhist Christian dialogue where biblical texts are analyzed by placing Christian and Buddhist perspectives side by side is a method which provides a good platform for further in depth dialogue Rootedness Christy Wampole,2016-04-06 Roots are good to think with indeed most of us use them as a metaphor every day A root can signify the hiddenness of our beginnings or in its bifurcating structure the various possibilities in the life of an individual or a collective This book looks at rootedness as a metaphor for the genealogical origins of people and their attachment to place and how this metaphor transformed so rapidly in twentieth century Europe Christy Wampole s case study is France with its contradictory legacies of Enlightenment universalism anti Semitism and colonialism At one time French nationalist rhetoric portrayed the Jews as unrooted and thus unrighteous people After the two world wars the root metaphor figured in the new French philosophy notably Deleuze and Guattari And recently Caribbean thinkers in Haiti Guadeloupe and Martinique have debated whether their roots were in Africa France the Caribbean or in some pan national network that could not be identified on a map Walpole argues that while the metaphor was perhaps once useful in the establishment of communities and identities that usefulness has expired The longer we remain attached to the figure of rootedness the more discord it sows Giving up on the metaphor of rootedness Wampole urges allows us to see at last that we are in fact unbound by the land we inhabit

The Economic Review ,1908 Zen and the Modern World Masao Abe,2003-08-31 Written by one of Japan s foremost contemporary thinkers and scholars Zen and the Modern World is the third in a series of essay collections on Zen Buddhism as seen in the context of Western thought As a leading representative of the Kyoto School which has sought a critical comparative linking of Eastern and Western thought Abe has based his approach on constructive mutually respectful yet critical intellectual interaction and dialogue with some of the leading figures in the West including Paul Tillich Hans K ng and Eugene Borowitz as well as dozens of colleagues students and disciples Together with the previous volumes this work examines and exemplifies some key features of Kyoto School thought While the essays presented here should be read in light of the socio political criticism that has since been lodged against the Kyoto School and more particularly its founder Nishida Kitar most of them were written prior to the recent discussions and focus on issues of comparative philosophy and religious thought outside the contours of the debate This should not however limit their approach to the earlier historical context

Broken Hegemonies Reiner Sch 1 4rmann,2003-10-29 a book of striking originality and depth a brilliant and quite new interpretation of the nature and history of philosophy John Sallis In Broken Hegemonies the late distinguished philosopher Reiner Sch 1 4rmann offers a radical rethinking of the history of Western philosophy from the Greeks through Heidegger Sch

1 4rmann interprets the history of Western thought and action as a series of eras governed by the rise and fall of certain dominating philosophical ideas that contained the seeds of their own destruction These eras coincided with their dominant languages Greek Latin and vernacular tongues Analyzing philosophical texts from Parmenides Plotinus and Cicero through Augustine Meister Eckhardt and Kant to Heidegger Sch 1 4rmann traces the arguments by which these ideas gained hegemony and by which their credibility was ultimately demolished Recognizing the failure of ultimate norms Broken Hegemonies questions how humanity today is to think and act in the absence of principles **The Friend of China** ,1892
