*Unconscious Creation* A. J. Penny, Jacob Boehme, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **THE COLLECTED WORKS OF C. G. JUNG: Symbols of Transformation (Volume 5)** C.G. Jung, 2014-12-05 In 1911 Jung published a book of which he says it laid down a programme to be followed for the next few decades of my life It was vastly erudite and covered innumerable fields of study psychiatry psychoanalysis ethnology and comparative religion amongst others In due course it became a standard work and was translated into French Dutch and Italian as well as English in which language it was given the well known but somewhat misleading title of *The Psychology of the Unconscious* In the Foreword to the present revised edition which first appeared in 1956 Jung says it was the explosion of all those psychic contents which could find no room no breathing space in the constricting atmosphere of Freudian psychology It was an attempt only partially successful to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview For this edition appearing ten years after the first bibliographical citations and entries have been revised in the light of subsequent publications in the *Collected Works* and in the standard edition of Freud s works some translations have been substituted in quotations and other essential corrections have been made but there have been no changes of substance in the text [Creative Mind & Success: Philosophical & Practical Guide to Mental Wellness](#) Ernest Holmes, 2019-06-03 This eBook edition of *Creative Mind and Success* has been formatted to the highest digital standards and adjusted for readability on all devices This book is a spirited guide to mental wellness and business success written by Ernest Holmes the founder of the *The Science of Mind* movement The book provides answers for better comprehending the mind s creative power and explains how positive thinking can improve your life and help achieve prosperity and financial success [The Tao and the Logos](#) Longxi Zhang, 1992-04-17 The author investigates the metaphorical nature of poetic language highlighting the central figures of reality and meaning in both Eastern and Western thought the Tao and the Logos *Is this the Best God Could Do?* Sarah Tirri, 2011-03-03 *Is This the Best God Could Do* nonfiction approximately 115 000 words was born of a crisis of faith of the most cruel kind the loss of my mother who lingered on the brink death for five weeks and that is where the book begins I was living the American dream a happy wife and mother and by most measures charmed and then she died suffering terribly in the process in spite of my ardent prayers Like many in this position I felt that God had let me down but once my grief passed I realized that the God of traditional Christianity keeps us in thrall by fear and guilt by insisting we are small when we are really quite big beings When the World Trade Center collapsed I also realized that the end of the world might well be upon us because it is a self fulfilling prophecy brought about by the zealot believers in the Abrahamic religions fear carried to an

illogical extreme This epiphany made me angry Is This the Best God Could Do is also the result of that anger However although the topic is obviously deadly serious I debunk the warped monotheism of the Big Three with humor and wit as well as reasonable albeit edgy argument What follows the section in which I recount the loss of my mother and the realization that the Abrahamic version of God has been messing with us for a couple thousand years is part dialogue with that big guy picture Groucho Marx as interlocutor Hi God of Christianity Sarah here I can appreciate your dilemma I really can But the next time one of your angels gets out of hand please try to take care of the problem instead of making it one of ours part personal history and part reasoned deconstruction But the conclusion I reach about religion does not amount to an advocacy of atheism Although the monotheistic God is discounted as a manmade thing one used to control us I also argue against the godless scientism of Richard Dawkins The God Delusion Sam Harris Letter to a Christian Nation and Christopher Hitchens God is Not Great In fact I argue against this limited perception of human being as a random function of extraneous forces in favor of a more profound participation of humans in reality leading to a profound spiritual transformation on the part of individuals and eventually all of humanity I also argue for a kind of pandemic version of the dramatic wake up effect Eckart Tolle s concept from A New Earth I experienced when my mother died The human race indeed the very planet is going through extraordinary changes all cause for great alarm among the monotheists as the beginning of the end I insist in Is This the Best God Could Do that on the contrary our situation is karmically inevitable and the dire straits in which we find ourselves an invitation to spiritual growth and thereby a renewal of civilization I also call for those born to relative wealth the American populace in general but also most of the Western world to accept responsibility for charting the way forward because it is easier to evolve beyond the traditional notions of religion when one s belly is full and one is warm and dry But Is This the Best God Could Do is not just a polemic about the medieval grip of fundamentalism that holds humans back from the self awareness necessary to find a way forward through the difficulties of history to an enlightened way of life the book also charts the path I offer guidance to the reader for achieving the kind of awareness that allows them to hear God s voice and to participate in the world as an active agent instead of being just a passive believer to understand the magnitude of our spiritual reality Although my book is utterly unique in its mixture of elements the strident debunking of monotheism the hopeful recognition of the bigness of humans as spiritual beings to stand in opposition to the smallness of fear and guilt a hope filled recipe for saving us from ourselves and memoir
