Universal Citizen:

Universal Citizenship R. Andrés Guzmán, 2019-01-15 Recently many critics have questioned the idea of universal citizenship by pointing to the racial class and gendered exclusions on which the notion of universality rests Rather than jettison the idea of universal citizenship however R Andr s Guzm n builds on these critiques to reaffirm it especially within the fields of Latina o and ethnic studies Beyond conceptualizing citizenship as an outcome of recognition and admittance by the nation state in a negotiation for the right to have rights he asserts that insofar as universal citizenship entails a forceful entrance into the political from the latter s foundational exclusions it emerges at the limits of legality and illegality via a process that exceeds identitarian capture Drawing on Lacanian psychoanalysis and philosopher Alain Badiou s notion of generic politics Guzm n advances his argument through close analyses of various literary cultural and legal texts that foreground contention over the limits of political belonging These include the French Revolution responses to Arizona s H B 2281 the 2006 immigrant rights protests in the United States the writings of Oscar Zeta Acosta Frantz Fanon s account of Algeria s anticolonial struggle and more In each case Guzm n traces the advent of the citizen as a collective subject made up of anyone who seeks to radically transform the organizational coordinates of the place in which she or he lives
