Untamed Alaska:

Untamed Alaska Steve Kaufman, 1987 Alaska's Brooks Range John Kauffmann, 1992-11-30 Explores both geologic and human history of the region Includes a sampling of literature inspired by the Brooks Range Examines past present and future conservation efforts in this extraordinary place Not just the ultimate mountains for their northernmost location on the North American continent the Brooks Range also is one of the world's last great unspoiled wildernesses A land of environmental and cultural extremes its impressions on those who visit or reside there is as far ranging as humankind's effect on the Range itself Austere mystical and stunningly beautiful the psychic and corporeal influence of the region is inescapable Alaska's Brooks Range The Ultimate Mountains looks at the many facets that make this region so provocative and so worthy of our strongest preservation efforts It explores the geologic origins of some of the most desolate beauty on earth the native inhabitants both man and animal whose age old methods of survival have been altered by the winds from the lower 48 and the human history from the early British military explorers to gold panners to the geographers who first mapped the Arctic wilderness The story of Bob Marshall traces his influence as the father of the Arctic conservation movement and Range Writings offers a sampling of literature inspired by the Brooks Range experience Finally this book takes a hard look at past present and proposed conservation efforts in the Brooks Range because there is much more at stake than land and wildlife in this last frontier The future of humankind is here where the rarity of existence in pristine country is an everyday reality where we can learn how best to fit in without destroying the scheme of life so exquisitely evolved on this planet Alaska's Brooks Range is an affectionate portrait of an untamed territory a land that challenges the limits of its natural inhabitants and those of human spirit and providence

In Pursuit of Alaska Jean Morgan Meaux, 2013-07-15 This collection of Alaskan adventures begins with a newspaper article written by John Muir during his first visit to Alaska in 1879 when the sole U S government representative in all the territory's 586 412 square miles was a lone customs official in Sitka It closes with accounts of the gold rush and the 1909 Alaska Yukon Pacific Exposition in Seattle Jean Meaux has gathered a superb collection of articles and stories that captivated American readers when they were first published and that will continue to entertain us today The authors range from Charles Hallock the founder of Forest and Stream a precursor of Field and Stream to New York society woman Mary Hitchcock who traveled with china silver and a 2 800 square foot tent After explorer Henry Allen wore out his boots he marched barefoot as he continued mapping the Tanana River and Episcopal Archdeacon Hudson Stuck mushed by dog sled in Arctic winters across a territory encompassing 250 000 miles of the northern interior Although the United States acquired Alaska in 1867 it took more than a decade for American writers and explorers to focus attention on a territory so removed from their ordinary lives These writers adventurers tourists and gold seekers would help define the nation's perception of Alaska and would contribute to an image of the state that persists today This collection unearths early writings that offer a broad view of American encounters with Alaska accompanied by Meaux's lively and concise

introductions The present day adventurer will find much to inspire exploration while students of the American West can gain new access to this valuable trove of pre Gold Rush Alaska archives For more information go to <http://www.inpursuitofalaska.com>

Prophets and Moguls, Rangers and Rogues, Bison and Bears Heather Hansen, 2015-10-20 Celebrates the dedicated men and women of our National Park Service NPS who have safeguarded the nation's natural legacy for 100 years 2016 marks the 100th anniversary of the creation of the National Park Service 125 images including many archival photos Anyone who has stood beneath a redwood neck craned to see its top rising far above or who has heard ghostly whispers of residents long past among the burnt red cliff dwellings of Mesa Verde or who has climbed the stairs to gaze out from the Statue of Liberty's crown would agree that our National Park system is a source of pride and wonder But 100 years ago creating a bureau to administer America's vast and diverse parks was a concept requiring great debate and persuasion The story of the National Park Service is the story of people who fought for the protection of the places that have helped to define our national identity those places we now hold dear from the blue hazy mist that hangs over Great Smokey Mountains National Park to the spouting geysers of Yellowstone to the thick steamy waterways of the Everglades The NPS founders were the architects of our family vacations the inventors of icons with worldwide appeal They battled progress which often masked greed and ignorance and their story continues with those who molded and grew the NPS through a flu pandemic the Great Depression World Wars and beyond Prophets and Moguls Rangers and Rogues Bison and Bears is the engaging and accessible story of the NPS that brings to life its history and characters The result of extensive research dozens of interviews with Park Service employees and the author's own experiences at park units she visited all over the country it's a highly readable history that connects the dots of past to present and will remind readers of the vast array of public assets administered by the NPS resources which offer something for everyone and also need every citizen's support

Trout Country Bob Saile, 1999 After more than 25 years as Outdoor Editor of the Denver Post Bob Saile has countless opinions and stories to share on the allure and adventure of trout streams and fly fishing He serves up a compelling collection with most of the essays set in the West This is trout country the fish the flies the people and the places In his essay Heavy Hitters Saile recalls as a boy reading an article by Joe Brooks about catching a brown trout on southwestern Montana's Big Hole River For Saile it was as if he was there He experienced landing the trout as well as feeling a kinship with the writer You will get the same feeling reading this lively collection which takes the reader from the South Platte to the Gunnison to the Pacific Northwest and the wilds of Alaska The fight carries out into the main current and the brown jumps in that wild absolutely reckless way that browns have early in the fight and I see it is a rather modest size fish maybe 13 inches It looks good though Really good Moments later I have its black and red spotted side flashing back at me in the glint of water reflected sunlight and I extract the fly from the top jaw and slide the fish out of my hand into the flow The first surface take trout of the summer is in the books and this pleases me The rest will be in the gravy category now And I

know there will be more to come because the river and the day have that look that feel The essays range from describing a bracing morning of ice fishing in Colorado to the thrill of stalking an Alaskan salmon to thoughts on fish management and its attendant bureaucracy In Saile's conversations with other anglers some well known some not but all of whom teach the author something about fishing and himself If you care about rivers trout salmon steelhead and fishing in general this veteran writer and angler makes for a fascinating companion For Saile the core difference between those who don't fish and those of us who do is as simple as this We who do fish are especially blessed *Understanding the Main Idea* James A.
