[Biohackers Magazine](#) , First impressions seem to always get the better of us Quick judgments about others ourselves and our communities never seem to cease making their presence known in our minds Psychologically these initial assumptions and impressions that our mind receives are tactics our mind uses as a means of survival sometimes aligning with our intuition to help us determine what or who is going to be helpful or harmful But we must be careful here Our mind is equipped to handle countless sensations and thoughts and due to this we sometimes get so bogged down by this demanding busy world that we take the easy way out and make a judgment based solely on superficial knowledge without any deeper reflection or analysis The world is fast paced and although our mind does well to keep up it needs to be able to consciously recognize that our health both individual and as human beings is dependent on the strive to understand oneself and the other with empathy and compassion COVID 19 has shed a new spotlight on the increasing mental health crisis that is facing our world and I believe that one of the main causes is careless thinking that leads to quick assumptions to save oneself the time of research and contemplation Don t let others think for you Yes respect those with the authority to offer professional opinions but don t be a follower be a student and learn from every experience When your health seems to suffer don t assume the worst When someone comes at you the wrong way don t write them off as a heartless soul When you have a tough interaction with someone representing another community don t assume that everyone else is like that Instead look for the best in yourself others and the community There is the power behind the phrase Love thy neighbor When we treat every person that we come across as our neighbor we break down the prideful barriers that
