## Stamp Atlas:

The Stamp Atlas W. Raife Wellsted, Stuart Rossiter, 1986 Shows stamps from around the world describes the history of stamp production in each country and includes background information about each nation **World Stamp Atlas** David Norton, 2026-02-28 Across the world authorities provide stamps as receipts for use of their mail services Starting in Britain in 1840 the use of self adhesive postage stamps spread rapidly to all seven continents The World Stamp Atlas locates these mail operators in map form In addition to current suppliers the Atlas records former stamp issuers many now long gone A fascinating history is graphically displayed as small states amalgamated to form major nations or others disintegrated into a collection of new postal authorities In some cases a series of maps chart postal developments in an area over 150 years or more Not all mail services have been provided by nations Trading companies have been granted postal rights whilst at the opposite end of the scale short lived provisional issues have covered shortages of regular issues Temporary stamps have also supported changes in control during wartime whilst following conflict the United Nations or military occupation forces have assumed temporary control of civilian posts Of natural interest to philatelists and casual stamp collectors The World Stamp Atlas also provides a historical narrative that would not be out of place in a school college or public library **The Scott Stamp Atlas** Ludvik Mucha, Bohuslav Hlinka, 1987 **THE STAMP ATLAS; BY...
