## **Tehran Rising:**

**Tehran Rising** Ilan Berman, 2007-04-24 The Islamic Republic of Iran today constitutes the single greatest challenge to the United States and the War on Terror In the Persian Gulf and Central Asia Iranian policymakers are busy cobbling together alliances intended to elevate it to the status of a regional superpower at the expense of the U S and its European allies In Iraq Iran is spending millions to perpetuate a lingering insurgency that threatens to transform the former Ba athist state into another Islamic Republic Iran remains the world s most active sponsor of terrorism fueling the activities of Hamas the Palestinian Islamic Jihad Hezbollah and al Qaeda And through its nuclear advances mature chemical and biological weapons programs and an expanding conventional military Iran is gaining the capability to catastrophically alter the balance of power far beyond its immediate neighborhood All of this has been guided by an ambitious strategic agenda that is designed to make the Iranian regime the center of gravity in the post Saddam Middle East As evidence of this threat mounts one thing remains crystal clear to Ilan Berman Washington is woefully unprepared to deal with this mounting peril Berman s approach is hard hitting provocative and unflinchingly critical But he takes the exploration of Iran s menace one step further providing what has been missing so far in the foreign policy discourse regarding Iran both within the U S government and outside it practical policy prescriptions designed to contain Iran s strategic ambitions

**The Coming Oil Storm** Ron Rhodes, 2010-07-01 Ron Rhodes a leading scholar on biblical prophecy reveals how looming tensions over oil factor into end time global alignments and how they may lead to a dramatic shift in the balance of power in the world Much of the world s oil is in the custody of unstable and sometimes hostile regimes Nations around the world are positioning themselves to protect their shrinking piece of the pie of dwindling oil reserves Global tensions continue to rise In *The Coming Oil Storm* Rhodes documents the role of Islam as the religion in control of most of the world s oil reserves and shows convincingly that once Muslims are in possession of the two swords of oil and nuclear weapons they will feel empowered to act as they wish Oil could even play a role in the path to Armageddon *The Coming Oil Storm* is an essential guide for understanding the state of the world today and what s yet to come

**Iran's Regional Relations** Seyed Mohammad Houshisadat, 2020-10-05 Focusing on the interplay between domestic level changes and region wide interaction this book provides a comprehensive analytical and theoretical survey of Iranian foreign relations in the Middle East from Antiquity until the Islamic Republic It charts developments from the earliest regimes in Persia including the Median kingdom and the Sassanid Empire through rule by amongst others Abbasids Mongols Safavids and Qajars up to the modern states of the Shah and the Islamic Republic Throughout the author reflects on the enduring factors which have shaped Iran s relations with the rest of the region factors such as geography culture the belief systems of policy makers the structures of decision making and government and sub regional systems Overall the book provides a deep analysis of Iranian foreign relations in the Middle East over 4 700 years

*Iran and China* Shirzad Azad, 2017-02-09 Because of their historical roles and politico economic significance in

contemporary international politics Iran and China have perpetually been in the crosshairs of both policy circles and interested observers in almost every other part of the world Crucial interactions touching upon any aspect of Tehran Beijing ties from diplomatic and military links to economic and cultural connections have especially been in the limelight of such riveting inquisitiveness which has often given rise to a flurry of rash comments sensational claims and impetuous conclusions But a detached probe into critical developments involving Iran and China however elucidates this rather inconvenient eventuality that the relations between the two important countries are not essentially based on pivotal principles and clear cut commitments nor do their ties really rest on tenuous thoughts and flimsy foundations devoid of any common interests in short term or well conceived objectives in long run In the same way the two political systems in Tehran and Beijing may ultimately end up each contributing to a separate pole of power regionally and internationally rather than moving faithfully and steadfastly in lockstep with what it requires them to truly materialize their more recent aspiration and design to move toward achieving a very close strategic partnership

**Regional and International Powers in the Gulf Security** Alaa Al-Din Arafat,2020-04-21 This book discusses the threats and challenges facing the Persian Gulf and the future security in the region providing an overview of the major regional and extra regional actors in Gulf security It argues that except for Iran no regional or extra regional actors including the United States China India and Russia have developed a strategy for Persian Gulf security and only Turkey has expressed a willingness to provide security for the region Importantly the major threats to Persian Gulf security are nonconventional rather than external threats to Iranian hegemony or the balance of power In conclusion it predicts that the power struggle in the Persian Gulf in the coming decades will be between Iran and Turkey and not between Iran and Saudi Arabia This book is of interest to diplomats journalists international affairs specialists strategists and scholars of Gulf politics and security and defence studies
