The Healthdevelopment Link:

The Health-development Link Rosalia Rodriguez-Garcia, Ann Goldman, 1994 Discourses of Development R. D. Grillo, R. L. Stirrat, 2020-12-23 Development is clearly a contentious concept It is common knowledge that there is frequently a troubling divide between what Western developers think development entails and how those people affected understand the ensuing processes By treating development as problematic this book seeks to generate new insights into the relationships between the various parties involved and to enhance understanding of the ways in which particular discourses of development are generated Authors raise provocative questions about the relationship of politics power ideology and rhetoric to the institutional practice of development These hegemonic considerations are shown to have a profound effect on the culture of aid and the interface between development personnel and those whom development is supposed to benefit
