## **Two Party Line Conversations In The Field:**

**Two-party Line** Jane Carter Goodale, Ann Chowning, 1996 This honest glimpse into the nature of ethnographic fieldwork revolves around letters written by the author to illustrate the daily adventures of learning to understand a largely unknown culture through participant observation and interactive discourse [Pulling the Right Threads](#) Laura Zimmer-Tamakoshi, Jeanette Dickerson-Putman, 2024-05-20 A tribute to Jane C Goodale Pulling the Right Threads discusses the vibrant ethnographer and teacher's principles for mentoring collaborating and performing fieldwork Known for her ethnographic research in the Pacific development of the Association of Social Anthropology in Oceania and influence in the anthropology department at Bryn Mawr College Goodale and other contributors renew the debate in anthropology over the authenticity of field data and representations of other cultures Together they take aim at those who claim ethnography is outmoded or false

**EFieldnotes** Roger Sanjek, Susan W. Tratner, 2016 Examines how anthropological fieldwork has been affected by technological shifts in the 25 years since the 1990 publication of Fieldnotes the making of anthropology edited by Roger Sanjek published by Cornell University Press *Collecting Colonialism* Chris Gosden, Chantal Knowles, 2020-05-26 Colonialism has shaped the world we live in today and has often been studied at a global level but there is less understanding of how colonial relations operated locally This book takes twentieth century Papua New Guinea as its focus and charts the changes in colonial relationships as they were expressed through the flow of material culture Exploring the links between colonialism and material culture in general the authors focus on the particular insights that museum collections can provide into social relations Collections made by anthropologists in New Britain in the first half of the century are compared with recent fieldwork in the area to provide a particularly in depth picture of historical change Museum collections can reveal how people dealt with changes in the nature of community gender relations and notions of power through the shifting use of objects in ritual and exchange Objects photographs and archives bring to life both the individual characters of colonial New Britain and the longer term patterns of history Drawing on the related disciplines of archaeology linguistics history and anthropology the authors provide fresh insights into the complexities of colonial life In particular they show how social relationships among Melanesians whites and other communities helped to erode distinctions between colonizers and locals distinctions that have been maintained by scholars of colonialism in the past This book successfully combines a specific geographical focus with an interest in the broader questions that surround colonial relations historical change and the history of anthropology
