Virtual Justice:

Virtual Justice H. Richard Uviller, 2008-10-01 Sensational trials obsessively televised and reported by news media have led many Americans to question the effectiveness of their criminal justice system Do police have the laws they need or the competence to do their job Can juries recognize the truth in the tangle of evidence presented to them What do lawyers actually contribute to the quest for justice in the criminal court In this fascinating book a distinguished legal authority examines the flaws contradictions and weaknesses in our American justice system The gripping stories he tells about the investigation and trial of criminal cases reveal what s really going on and demonstrate how the system often fails to deliver true justice H Richard Uviller deftly covers major aspects of the criminal justice process from the gathering of evidence capture and custody and eyewitness identification to plea bargaining selecting the jury and the role of the judge He illuminates each aspect of the process by creating and then analyzing a scenario drawn from the daily business of the courtrooms of the nation a scenario in which police or judges may find themselves frustrated or immobilized often by the law itself Uviller explains the legal quandaries that often bedevil the process and shows how decisions by the Supreme Court have relieved or aggravated perplexity He concludes that the prohibitions limiting investigation the pervasive combat mentality between defense and prosecution lawyers and in particular the power vested in a random collection of ordinary people gathered together as a jury all contribute to a criminal justice system that produces virtual rather than actual justice

Virtual Justice Greg Lastowka, 2010-10-26 Tens of millions of people today are living part of their life in a virtual world In places like World of Warcraft Second Life and Free Realms people are making friends building communities creating art and making real money Business is booming on the virtual frontier as billions of dollars are paid in exchange for pixels on screens But sometimes things go wrong Virtual criminals defraud online communities in pursuit of real world profits People feel cheated when their avatars lose virtual property to wrongdoers Increasingly they turn to legal systems for solutions But when your avatar has been robbed what law is there to assist you In *Virtual Justice* Greg Lastowka illustrates the real legal dilemmas posed by virtual worlds Presenting the most recent lawsuits and controversies he explains how governments are responding to the chaos on the cyberspace frontier After an engaging overview of the history and business models of today s virtual worlds he explores how laws of property jurisdiction crime and copyright are being adapted to pave the path of virtual law Virtual worlds are becoming more important to society with each passing year This pioneering study will be an invaluable guide to scholars of online communities for years to come
