*Constructing a Cross-Border Region in the Pacific Northwest* Pierre-Alexandre Beylier, 2023-11-03 For residents living at

national borders the divisions between countries are rarely black and white and often everyday interactions contribute to the creation of a cross border region This book examines this phenomenon in Cascadia which runs along the Canada US border in the Pacific Northwest Placing people at the heart of the analysis the book considers the everyday interactions and links which bind residents together and help to define Cascadia as a cross border region The book also assesses the impact that increased border security in the wake of 9 11 has had on border residents Following a bottom up approach rather than a top down approach the book examines how border security impacts the residents mobility their representations of the border and potentially the existence of a cross border identity Drawing on extensive original qualitative and quantitative data this book will be of interest to researchers across border studies geography geopolitics and cultural studies as well as to policy makers and other stakeholders with an interest in cross border cooperation
