Vision, Mission, Values, Aspirations, Do They Matter? Sam Schreim, 2020-01-14

What did Adolf Hitler, John F. Kennedy, and Gandhi have in common? They all had a VISION and went on a MISSION to steer and unite the public towards their goals and objectives. Mission, vision, values, and aspirational statements are meant to be more than decorations and slogans that make organizations look good in the eyes of employees, customers, investors, and stakeholders. When articulated properly, vision and mission statements can be powerful tools and can be positioned as strategic roadmaps to steer and unite organizations, employees, and stakeholders towards common objectives and goals. In addition, vision and mission statements can help corporations and organizations define their purpose and establish a unique corporate identity.

In this book, you will learn the meaning and the purpose of each of these statements and why they remain relevant and popular management tools in 2020. The book contains tools and frameworks to guide you in developing or rethinking your own vision, mission, values, and aspirations statements. Plus, you will find a reference guide to vision and mission statements from 1,001 leading global organizations that were in place at the time of launch of this book to inspire you when drafting your own.

Strategic Management in Islamic Finance Alexander Pock, 2007-12-05

Alexander von Pock develops a holistic conceptual framework for identifying and testing key success factors of Islamic financial institutions. The framework integrates insights into the current practices of Islamic finance, a variety of theories (namely the market-based view, the resource-based view, and to some extent New Institutional Economics approaches) as well as previous research from the fields of strategic management and economics. The author is testing the theoretical framework empirically in a survey of 36 major Islamic financial institutions based in the Gulf Cooperation Council area and in Malaysia.
