Visual Basic Net Programming Language:

The Visual Basic .Net Programming Language Paul Vick,2004 Praise for The Visual Basic NET Programming Language There is no substitute to getting the inside scoop directly from a book written by the father of a programming language such as Bjarne Stroustrup for C James Gosling for Java and Alan Cooper for the original version of Visual Basic Paul Vick the father of Visual Basic NET explains the whys and hows of this exciting new language better than any other human being on the planet Ted Pattison Barracuda NET The Visual Basic NET Programming Language includes nuances that in all my use and study of VB NET I haven t seen discussed anywhere else For example I learned that you can use the Imports statement to import an Enum name so that you needn t refer to the enum in all its uses In addition I learned that the dictionary lookup operator works in VB NET I thought this one had been retired In any case if you re searching for a book that covers all the language syntax issues and more Paul Vick s book is a great place to look Ken Getz Senior Consultant MCW Technologies LLC This book is an excellent stepping stone for Visual Basic developers wanting to get their toes wet in the NET waters Paul s presentation of the core topics all VB developers should tackle first is clear concise and unlike other books in the genre does not overwhelm the reader The VB6 vs VB NET task oriented approach guides you through the new language and OO features and then moves to basic threading and other CLR topics as well as to the key points in the COM to NET transition in a well thought out sequence If you ve been holding out on VB NET this is a great book to get you started Klaus H Probst Sr Consultant Architect Spherion Technology Services Microsoft MVP There is no shortage of VB NET books in the market but this is the only book straight from the creators While that is an excellent reason in itself for reading this book it is the brevity and clarity of the content along with the examples that makes this book a must have Amit Kalani Developer Overall I liked this book and it definitely benefited me I learned new things I didn t see anywhere else and I ll certainly put these to good use in the future Paul s book makes a great reference manual for intermediate and advanced VB NET developers Philip Williams System Engineer LDC Direct This book contains a lot of great information I have seen nowhere else and addresses issues that other books do not Ethan Roberts NET Architect General Casualty This book is full of useful information and provides a good historical background for the Visual Basic NET Language Dave Vitter Technical Lead Developer and author of Designing Visual Basic NET Applications Coriolis 2001 The definitive Microsoft Visual Basic NET reference authored by Visual Basic NET s lead architect If you want to leverage all of VB NET s immense power get this book It s the definitive VB NET reference and tutorial and the first Visual Basic book written by one of VB NET s lead architects No other book offers this much behind the scenes insight about why VB NET works the way it does how it evolved and how you can make the most of it The Visual Basic NET Programming Language is a superb learning tool for new VB NET programmers and a must have reference for developers at every level Paul Vick presents precise language descriptions essential reference materials practical insights and hundreds of code samples straight from Microsoft s VB NET design team Just some of the features

include A history and overview of Visual Basic s evolution into VB NET Complete coverage of the language syntax Transitioning from COM to the CLR and leveraging the NET platform Runtime functions Taking full advantage of VB NET s object oriented features Notes on style design and compatibility throughout the text Notes for the advanced user throughout the text Vick exposes VB NET s most powerful capabilities with unprecedented depth and clarity and packs this book with information you simply won t find anywhere else Whether you re an experienced VB NET programmer upgrading from earlier versions of Visual Basic or coming to Visual Basic and NET for the first time you ll find this book indispensable
