Overpowering Conformism

Esther Leslie

Walter Benjamin Overpowering Conformism

Stephanie Polsky

Walter Benjamin Overpowering Conformism:

Walter Benjamin Esther Leslie, 2000-05-20 Esther Leslie's path breaking study of Walter Benjamin is unlike any other book presently available in English on Benjamin in seeking to make a case for a more politicised reading of Benjamin's oeuvre. In looking at the entirety of Benjamin's work rather than the four or five essays available in English which tend to form the Benjamin canon, Leslie offers powerful new insights into a key twentieth century political thinker, correcting the post-structuralist bias that has characterised so much Benjamin scholarship and repositioning Benjamin's work in its historical and political context. In her examination of Benjamin's commentary on the politics and aesthetics of technology, from Benjamin's work on nineteenth century industrial culture to his analyses of the Nazi deployment of the bomber, Esther Leslie re-contextualises Benjamin's writings in a lucid and cogently argued new study. **Walter Benjamin** Esther Leslie, 2008-01-15 Drawing upon a wealth of journal writings and personal correspondence, Esther Leslie presents a uniquely intimate portrait of one of the intellectual giants of the twentieth century, Walter Benjamin. She sets his life in the context of his middle class upbringing, explores the social, political and economic upheaval in Germany during and after World War I and recounts Benjamin's eccentric love of toys, trick books, travel and ships. From the Frankfurt School and his influential friendships with Theodore Adorno, Gershom Scholem and Bertolt Brecht to his travels across Europe, Walter Benjamin traces out the roots of Benjamin's groundbreaking writings and their far-reaching impact in his own time. Leslie argues that Benjamin's life challenges the stereotypical narrative of the tragic and lonely intellectual figure, instead positioning him as a man who relished the fierce combat of competing theories and ideas. Closing with his death at the Spanish-French border in a desperate flight from the Nazis and Stalin, Walter Benjamin is a concise and concentrated account of a capacious intellect trapped by hostile circumstances. **"Overpowering Conformism"**, 1994 *Baudelaire Contra Benjamin* Beibei Guan, Wayne Cristaudo, 2019-05-23 This book offers the first sustained argument against the philosophy of Walter Benjamin and his readings of Charles Baudelaire. More broadly, it is also a critique of politicized aesthetics and cultural Marxism of which Benjamin is a pioneering and emblematic figure. Cristaudo and Beibei argue that Baudelaire was not mistaken in refusing to subject aesthetics to morality and politics. Baudelaire's refusal was based on the recognition that existential matters such as sickness, evil, death, sexual longing, melancholy and beauty itself, all themes at the center of his poetry, are by nature intrinsically supra-political. By contrast, Benjamin's faith in political redemption, while breaking with the enlightenment's faith in progress, nevertheless conforms to another core element of faith of the enlightenment: via faith in the ability of morals and politics to liberate humanity. The authors make the case that Benjamin's understanding of politics is severely deficient because it is not sufficiently versed in an understanding of economics or the nature of class interests and that Marx's own theory of economics is fundamentally deficient and creates an insurmountable problem for those deferring to a future industrial society free from capitalism. [The Intangibilities of Form](#) John Roberts, 2020-05-05 In this intellectually wide

ranging book John Roberts develops a labor theory of culture as a model for explaining the dynamics of avant garde art and the expansion of artistic authority in the twentieth and twenty first centuries From Duchamp to Warhol conceptual art and the post visual practices of the moment Roberts explores the relationship between artistic labor and productive labor and the limits and possibilities of authorship In doing so he confronts a recurring theme of both conservative and radical detractors of modern art in the twentieth and twenty first centuries how is skill and the seeming absence of skill in modern art to be theorized and evaluated Drawing on cognitive psychology labor process theory social anthropology and debates in contemporary political philosophy Roberts book establishes a new critical topography for examining the cultural form of art today

The Art of Mechanical Reproduction Tamara Trodd,2015-09-25 The Art of Mechanical Reproduction presents a striking new approach to how traditional art mediums painting sculpture and drawing changed in the twentieth century in response to photography film and other technologies Countering the modernist view that the medium provides advanced art with resistance against technological pressures Tamara Trodd argues that we should view art and its practices as imaginatively responding to the potential that artists glimpsed in mechanical reproduction putting art into dialogue with the commercial cultures of its time The Art of Mechanical Reproduction weaves a rich history of the experimental networks in which artists as diverse as Paul Klee Hans Bellmer Ellsworth Kelly Robert Rauschenberg Gerhard Richter Chris Marker and Tacita Dean have worked and it shows for the first time how extensively technological innovations of the moment have affected their work Original and broad ranging The Art of Mechanical Reproduction challenges some of the most respected and entrenched criticism of the past several decades and allows us to think about these artists anew

Information Theory,

Encyclopedia of Media and Communication Marcel Danesi,2013-06-17 The first comprehensive encyclopedia for the growing fields of media and communication studies the Encyclopedia of Media and Communication is an essential resource for beginners and seasoned academics alike Contributions from over fifty experts and practitioners provide an accessible introduction to these disciplines most important concepts figures and schools of thought from Jean Baudrillard to Tim Berners Lee and podcasting to Peircean semiotics Detailed and up to date the Encyclopedia of Media and Communication synthesizes a wide array of works and perspectives on the making of meaning The appendix includes timelines covering the whole historical record for each medium from either antiquity or their inception to the present day Each entry also features a bibliography linking readers to relevant resources for further reading The most coherent treatment yet of these fields the Encyclopedia of Media and Communication promises to be the standard reference text for the next generation of media and communication students and scholars

Walter Benjamin's Transit Stephanie Polsky,2010 Applies the lens of Gilles Deleuze and Felix Guattari s philosophy to the critical writings of Walter Benjamin the latter devised amid and atmosphere of emergent fascism in Europe between two World Wars This book discusses Walter Benjamin s critic and contemporary Martin Heidegger

Modernism Between Benjamin and Goethe Matthew Charles,2019-12-12 Widely regarded as one of the

foremost cultural critics of the last century Walter Benjamin's relation to Modernism has largely been understood in the context of his reception of the aesthetic theories of Early German Romanticism and his associated interest in avant garde Surrealism But this Romantic understanding only gives half the picture Running through Benjamin's thought is also a critique of Romanticism developed in conjunction with a positive engagement with the philosophical artistic and historical writings of J W von Goethe In demonstrating the significance of these Goethean elements this book challenges the dominant understanding of Benjamin's philosophy as essentially Romantic and instead proposes that Goethe's Classicism conceived as the counterpoint to Romanticism permits a corrective to the latter's deficiencies Benjamin's Modernist concept of criticism it is argued is constituted in the movement between these polarities of Romanticism and Classicism Conversely placing Goethe's Classicism in relation to Benjamin's practice of literary criticism reveals historical tensions with Romanticism that constitute the untimely indeed it will be argued cinematic Modernism of his work Adopting a transcritical approach this book alternates between Benjamin and Goethe in relation to the experiences of colour language and technology assembling a constellation of philosophical and artistic figures between them including the writings of Kant Nietzsche Cohen Deleuze Koselleck Klages and the work of Gr newald Mar es Klee Turner Hulme Eisenstein Tretyakov and Murnau

Benjamin's Arcades Peter Buse,2006 The Arcades Project Walter Benjamin's unfinished masterpiece is a brilliant but maddening book Benjamin's Arcades an unGuided Tour looks for the method behind the madness carefully reconstructing the intellectual and political context of the work and unpacking its numerous analogies metaphors and conceptual gambits Written by three literary scholars and one historian this text is both a reading companion and a vigorous interpretation of one of the most important humanistic texts of the twentieth century Benjamin's Arcades is composed of 16 entries and a specially designed convoluted index Some of the entries confront Benjamin with a different reading of his own historical sources Blanqui Marx Giedion others look intensively at key themes obsessions and images the gambler commodity fetishism the Angel of History magic Throughout there is discussion of the relationship of Benjamin's work to current and past debate on topics such as modernity Judaism fascism and psychoanalysis Benjamin's Arcades opens up Benjamin's texts to a variety of interdisciplinary perspectives and will be an essential text for those seeking to better understand this extraordinary work

Twentieth-century European Cultural Theorists Paul Hansom,2001 Presents biographies of the men and women who wrestled with the complex theoretical problems of twentieth century culture Many of the theorists treated in this volume are concerned with the effects of mass culture technology and consumerism

An Imaginary England Roger Ebbatson,Ann Donahue,2005 In his highly theorised and original book Roger Ebbatson traces the emergence of conceptions of England and Englishness from 1840 to 1920 His study concentrates on poetry and fiction by authors such as Alfred Lord Tennyson Richard Jefferies Thomas Hardy Q Rupert Brooke and D H Lawrence reading them as a body of work through which a series of problematic English identities are imaginatively constructed Of particular concern is the way literary landscapes serve as

signs not only of identity but also of difference Ebbatson demonstrates how a sense of cultural rootedness is contested during the period by the experiences of those on the societal margins whether sexual national social or racial resulting in a feeling of homelessness even in the most self consciously English texts In the face of gradual imperial and industrial decline Ebbatson argues foreign and colonial cultures played a crucial role in transforming Englishness from a stable body of values and experiences into a much more ambiguous concept in continuous conflict with factors on the geographical or psychological periphery

Walter Benjamin's Archive Walter Benjamin,2015-09-15 The work of the great literary and cultural critic Walter Benjamin is an audacious plotting of history art and thought a reservoir of texts commentaries scraps and fragments of everyday life art and dreams Throughout his life Benjamin gathered together all kinds of artifacts assortments of images texts and signs themselves representing experiences ideas and hopes each of which was enthusiastically logged systematized and analyzed by their author In this way Benjamin laid the groundwork for the salvaging of his own legacy Intricate and intimate Walter Benjamin s Archive leads readers to the heart of his intellectual world yielding a rich and detailed portrait of its author

Marxism And Media Studies Mike Wayne,2003-07-20 This is an accessible guide to key Marxist concepts and how to apply them to contemporary cultural analysis Drawing on Marx Lukacs Gramsci Habermas Jameson and others the book retools and redeems key concepts such as class the mode of production culture industries the state base superstructure ideology hegemony knowledge and social interests and commodity fetishism It also includes analysis of film television the internet and print media Using case studies including Disney Big Brother to the spirits and spectres in such films as The Others The Devil s Backbone and Dark City it illuminates the fetishisms of culture and society under capital Exploring the relevance of each concept to understanding the media Wayne explains why Marxism is an important critical methodology for the media student to engage with He foregrounds the theoretical and political shifts that have led to its marginalisation in recent years and highlights how and why these trends are changing as once more people return to Marx and Marxism to understand the world around them

Exploring Visual Culture Matthew Rampley,2005 An introduction to the study of visual culture this book offers a view of visual culture that includes not only images but also other visual media and forms of expression from architecture to fashion design and the human body The book is organised around three broad themes exploring key ideas and debates that have occurred during the last 20 or so years the meanings of the term visual culture and of the various practices that form its basis conceptual approaches to the contemporary analysis of visual culture the cultural social and historical contexts informing its production distribution and consumption Drawing on a wide range of examples from the last 100 years the book adopts a cross disciplinary perspective it also explores however the limits of visual culture as an interdisciplinary field of study engaging in current debates about the uses and value of the study of visual culture It will therefore be of value both for readers new to the subject and also for those seeking fresh interventions into contemporary discussions within the field Features Accessibly written by a team of experts in the field Illustrated

throughout Includes chapters on a wide range of visual forms including architecture and urban design film crafts fashion design fine art and the media Bertolt Brecht and Critical Theory Steve Giles,1998 **Fasting on Spam & Other Non-aligned Diets for Our Electronic Age** Stewart Home,2002 Stewart Home is deadpan and rough in his scandalous handling of art the artists and the academics and critics who perpetuate it **Environment and Planning** ,2009 Out to Lunch on Conferences ,2001
