## **Why We Fought:**

Why We Fought Thomas Gassner Chamberlain, 1919 The struggle to combat the Nazis during World War II encompassed front lines far beyond conventional battlefields In a panoramic and compelling account author Jerry Borrowman shares seven largely untold stories of people who undertook extraordinary efforts at enormous personal risk to defeat the Third Reich Some were ordinary citizens like William Sebold a German immigrant and US citizen who could have been a deadly foe but ultimately chose the Allied cause Coerced by the Gestapo into becoming a spy in America he instead approached the FBI offering to become a double agent Among them was famous Hollywood star Marlene Dietrich who was born in Germany but volunteered to entertain Allied troops in the European Theater of Operations and recorded radio messages designed to demoralize German soldiers As the Nazis swept through Europe citizens around the world faced both an individual and a national complex moral question How do you respond to tyranny and bloodthirsty madness These are stories of men and women who would not surrender or compromise They resisted and fought with total commitment for freedom and democracy

*Why We Fought* Peter C. Rollins, John E. O'Connor, 2008-07-25 A wide ranging and sophisticated anthology comparing theaters of war to wars in the movie theater Dennis Showalter author of Patton and Rommel *Why We Fought* makes a powerful case that film can be as valuable a tool as primary documents for improving our understanding of the causes and consequences of war A comprehensive look at war films from depictions of the American Revolution to portrayals of September 11 and its aftermath this volume contrasts recognized history and historical fiction with the versions appearing on the big screen The text considers a selection of the pivotal war films of all time including All Quiet on the Western Front Sands of Iwo Jima Apocalypse Now Platoon and Saving Private Ryan revealing how film depictions of the country's wars have shaped our values politics and culture and offering a unique lens through which to view American history Named as a Choice Outstanding Academic Title

Why We Fought Robert B. Westbrook, 2012-01-11 *Why We Fought* is a timely and provocative analysis that examines why Americans really chose to sacrifice and commit themselves to World War II Unlike other depictions of the patriotic greatest generation Westbrook argues that strictly speaking Americans in World War II were not instructed to fight work or die for their country above all they were moved by private obligations Finding political theory in places such as pin ups of Betty Grable he contends that more often than not Americans were urged to wage war as fathers mothers husbands wives lovers sons daughters and consumers not as citizens The thinness of their own citizenship contrasted sharply with the thicker political culture of the Japanese which was regarded with condescending contempt and even occasionally wistful respect *Why We Fought* is a profound and skillful assessment of America's complex political beliefs and the peculiarities of its patriotism While examining the history of American beliefs about war and citizenship Westbrook casts a larger light on what it means to be an American to be patriotic and to willingly go to war

Third Reich at enormous personal risk Some were soldiers like the Ghost Army an eclectic group of former artists actors and engineers who engaged in top secret tactical deceptions by staging ingenious decoy armies Using inflatable tanks radio transmissions and sound effects they were able to trick the Germans throughout the course of the war often working close to the front lines of the fiercest fighting Some were ordinary citizens like William Sebold a German immigrant and US citizen who could have been a deadly foe but instead chose the Allied cause When he was coerced by the Gestapo into becoming a spy in America he instead approached the FBI and offered to become a double agent His efforts successfully helped bring down a dangerous German spy network that was dedicated to stealing industrial and wartime secrets and sabotaging America on home soil These dramatic and inspiring personal stories shed light on some of the darkest days of World War II and one of the most perilous times in human history As the Nazis swept through Europe citizens around the world faced an individual and national complex moral question How do you respond to the tyranny and bloodthirsty madness of the Nazis These are stories of ordinary men and women who would not surrender or compromise They resisted and fought with total commitment for freedom and democracy despite the personal cost
