Within The Darkness:

The Self-Disclosure of God William C. Chittick, 2015-03-26 The Self Disclosure of God offers the most detailed presentation to date in any Western language of the basic teachings of Islam's greatest mystical philosopher and theologian. It represents a major step forward in making available to the Western reading public the enormous riches of Islamic teachings in the fields of cosmology, mystical philosophy, theology, and spirituality. The Self Disclosure of God continues the author's investigations of the world view of Ibn al Arab, the greatest theoretician of Sufism and the seal of the Muhammadan saints. The book is divided into three parts dealing with the relation between God and the cosmos, the structure of the cosmos, and the nature of the human soul. A long introduction orients the reader and discusses a few of the difficulties faced by Ibn al Arab's interpreters. Like Chittick's earlier work *The Sufi Path of Knowledge*, this book is based primarily on Ibn al Arab's monumental work *al Futu al Makk yah*. The Meccan Openings. More than one hundred complete chapters and subsections are translated, not to mention shorter passages that help put the longer discussions in context. There are detailed indices of sources, Koranic verses, and hadiths. The book's index of technical terminology will be an indispensable reference for all those wishing to delve more deeply into the use of language in Islamic thought, in general, and Sufism, in particular.

This book delivers information on characteristics of each type of seed dormancy, how each type of dormancy is broken in nature, and what environmental conditions are required for germination after dormancy is broken. It explains how studies should be done to distinguish persistent from transient seed banks and covers which species should be controlled, propagated, and conserved. *Seeds* gives the reader insight and guidelines for doing ecologically meaningful studies on the biogeography and evolution of seed dormancy and germination in
