Statistics Robin H. Lock, Patti Frazer Lock, Kari Lock Morgan, Eric F. Lock, Dennis F. Lock, 2020-10-13 Statistics Unlocking the Power of Data 3rd Edition is designed for an introductory statistics course focusing on data analysis with real world applications. Students use simulation methods to effectively collect, analyze, and interpret data to draw conclusions. Randomization and bootstrap interval methods introduce the fundamentals of statistical inference, bringing concepts to life through authentically relevant examples. More traditional methods like t tests, chi square tests, etc. are introduced after students have developed a strong intuitive understanding of inference through randomization methods. While any popular statistical software package may be used, the authors have created StatKey to perform simulations using data sets and examples from the text. A variety of videos, activities, and a modular chapter on probability are adaptable to many classroom formats and approaches.

The United States Navy's Pivot to Asia Bruce A. Elleman, 2023-06-30 This book examines the origins of the US Navy's 2007 Maritime Strategy, the formation of the US government's Pivot to Asia strategy, and the most recent revisions to this strategy that focus more specifically on China. Besides examining the details of this strategy's formulation, the book explores the internal and external repercussions on the US Navy of the Pivot to Asia. It discusses the Fat Leonard scandal, which involved bribery and corruption in contracts for the maintenance of the US fleets in the region, and considers the sharp decrease in training and readiness of the Pacific fleet to support the pivot, which in turn led to serious maritime collisions. It also assesses the impact of the pivot on other countries in the region, engaging in the debate as to whether the pivot was necessary in order to convince the countries of the region that the United States had not lost its staying power, or whether the pivot managed to make tensions in the Asia Pacific worse, even while allowing the strategic situation in the Middle East and Europe to worsen as a result of neglect.

Information Systems Architecture and Technology: Proceedings of 40th Anniversary International Conference on Information Systems Architecture and Technology - ISAT 2019 Zofia Wilimowska, Leszek Borzemski, Jerzy Świątek, 2019-09-04 This three-volume book highlights significant advances in the development of new information systems technologies and architectures. Further, it helps readers solve specific research and analytical problems and glean useful knowledge and business value from data. Each chapter provides an analysis of a specific technical problem, followed by a numerical analysis, simulation, and implementation of the solution to the real-world problem. Managing an organization, especially in today's rapidly changing environment, is a highly complex process. Increased competition in the marketplace, especially as a result of the massive and successful entry of foreign businesses into domestic markets, changes in consumer behaviour, and broader access to new technologies and information calls for organisational restructuring and the introduction
