Recovering the Icon Patrick Doolan, 2008 Leonid Ouspensky 1902 1987 settled in France following the Russian Revolution and worked as a talented but struggling commercial painter prior to discovering the icon which became his life's work Orthodox iconography had been in full decline since the seventeenth century and Ouspensky set out to recover the genuine sources of Eastern Christian art and to recover the Tradition that had spawned them In this work Schemamonk Patrick Doolan a pupil of Ouspensky has chosen and commented on more than 100 of Ouspensky's representative works Icons and sculptures and wood and stone as well as pressed metal are included giving us a broad range of the talent of this masterful teacher **BOOK JACKET** **The Icon** Mahmoud Zibawi, 1993 For those who love icons and who would love to know more about their history and the art itself this book will prove a real treasure Featuring pages of illustrations and photographs 96 in full color the book relates a wealth of information on iconography and iconographers and on their relationship to Church and State **The Icon in the Life of the Church** George Galavaris, 1981 **The Meaning of Icons** Léonide Ouspensky, Vladimir Lossky, 1982 The nature of the icon cannot be grasped by means of pure art criticism nor by the adoption of a sentimental point of view Its forms are based on the wisdom contained in the theological and liturgical writings of the Eastern Orthodox Church and are intimately bound up with the experience of the contemplative life The present work is the first of its kind to give a reliable introduction to the spiritual background of this art The introduction into the meaning and language of the icons by Ouspensky imparts to us in an admirable way the spiritual conceptions of the Eastern Orthodox Church which are often so foreign to us but without the knowledge of which we cannot possibly understand the world of the icon **Back cover** **The Periodical**, 1927 **Theology of the Icon** Léonide Ouspensky, 1992 This is the most comprehensive introduction available to the history and theology of the icon and is the standard text upon which most modern studies of iconography are based It includes more than the basic theory of the transfiguration of beauty and the sanctification of art It is a fundamental element in the entire body of Orthodox Tradition In this two volume work author Leonid Ouspensky provides the reader with a deep and serious approach to the mystery of the sacred image He surveys the development of the sacred art of the Christian East from its beginnings in catacomb art through the iconoclastic controversy of the eighth and ninth century Drawing especially on the Russian Orthodox tradition the author studies a large number of texts with care and in great detail He includes an analysis of the flowering of early Russian iconography tracing its later development and the state of the art today The 51 black and white photo illustrations along with the four panel foldout and six color plates will enable the reader to appreciate the Orthodox icon with an informed mind and open heart Volume I originally published in 1978 has been updated by the author and contains large sections of new material **Publisher description** **Current Literature**, 1898 **Icons** Şinasi Başıoğlu, 1989 **The Quarterly Review** William Gifford, Sir John Taylor Coleridge, John Gibson Lockhart, Whitwell Elwin, William Macpherson, William Smith, Rowland Edmund Prothero
