The Planetary Emergency Kent D. Shifferd, 2021-01-13 Earth and its inhabitants face an unprecedented crisis the human caused destruction of the planet's life support systems Deteriorating climate bringing super storms mass forest fires melting glaciers droughts extreme heat and rising seas a decline in food production soil loss water pollution and declining fisheries all threaten the future of life on earth with a looming extinction event not seen for 60 million years Beginning in the 17th century we developed a civilization based on radical materialism exploitation of natural resources and the myth of endless economic growth For all its technological wonders this hypercivilization has proven unsustainable This book explores ways we can create an ecocivilization compatible with the laws and limits of nature a new way of living already developing with new technologies new forms of social organization and a new story about ourselves and the Earth

Heidegger and the Environment Casey Rentmeester, 2015-12-04 In the past few decades it has become clear that the Western world's relation to nature has led to environmental degradation so wide ranging that it threatens the existence of human civilizations as we have come to know them The onset of anthropogenic climate change and the increasing threats of resource depletions are the most obvious signs of an environmental crisis This book attempts to examine the metaphysical underpinnings of our current environmental crisis thereby viewing it from a philosophical perspective Using Martin Heidegger's writings on the history of being as its lynchpin it examines how humans have come to view nature as a giant array of mere resources to be maximally exploited Following Heidegger Casey Rentmeester argues that this understanding of nature is rooted in the understanding of what it means to be that came about in ancient Greece Rentmeester then utilizes elements of Heidegger's post metaphysical later philosophy and aspects of early philosophical Daoism to create an alternative way to think about the relation between humans and nature that is environmentally sustainable

Initiative Torin M. Finser, 2011-04 The research presented by Robert Powell in this book shows that a new science of the stars is possible based on a study of reincarnation and karma Willi Sucher did much to pioneer the development of a new star wisdom or astrosophy as a scientific tool for the investigation of karma Powell has discovered that applying the science of astrosophy to the findings of karma research reveals through the discovery of astrological reincarnation rules the foundations underlying star wisdom Once these foundational findings relating to astrological reincarnation research have been assimilated a reformation of traditional astrology will inevitably take place Once the new astrology is established there will be a similar feeling in looking back upon traditional Western astrology that modern astronomers have when looking back upon the old geocentric astronomy The purpose of this book is to contemplate the incarnations of the prophet Elijah with the

goal of laying the foundation for a new science of the stars as the science of karma At the close of his last lecture after discussing the sequence of incarnations of Elijah John the Baptist Raphael Novalis Rudolf Steiner spoke of this individuality as a radiant and splendid forerunner with whom you are to prepare the work that shall be accomplished at the end of the twentieth century and will lead humankind past the great crisis in which it is involved These words indicate that from the end of the twentieth century and into the twenty first century that is now the Elijah John individuality is to be a radiant forerunner for humanity in the next step underlying our spiritual evolution Elijah Come Again presents a scientific approach toward unveiling the mystery of human destiny This theme is timeless in nature yet timely nevertheless in the recounting of the unfolding destiny and mission of the Old Testament prophet Elijah This individuality whose various incarnations are explored in this book is of such spiritual weight and stature as to call forth both rain and fire from heaven in the service of humanity s evolution toward communion with the spiritual forces of love and morality that live in the human heart as the abiding presence of the living Word Elijah does come first to restore all things Mark 9 12 These words of Christ apply now in relation to the ongoing fulfillment of Elijah s mission in the world at the present time toward the peoples of the Earth
