**Spatial Justice** Andreas Philippopoulos-Mihalopoulos, 2014-10-30 There can be no justice that is not spatial Against a recent tendency to despatialise law matter bodies and even space itself this book insists on spatialising them arguing that there can be neither law nor justice that are not articulated through and in space Spatial Justice presents a new theory and a radical application of the material connection between space in the geographical as well as sociological and philosophical sense and the law in the broadest sense that includes written and oral law but also embodied social and political norms More specifically it argues that spatial justice is the struggle of various bodies human natural non organic technological to occupy a certain space at a certain time Seen in this way spatial justice is the most radical offspring of the spatial turn since as this book demonstrates spatial justice can be found in the core of most contemporary legal and political issues issues such as geopolitical conflicts environmental issues animality colonisation droning the cyberspace and so on In order to argue this the book employs the lawscape as the tautology between law and space and the concept of atmosphere in its geological political aesthetic legal and biological dimension Written by a leading theorist in the area Spatial Justice Body Lawscape Atmosphere forges a new interdisciplinary understanding of space and law while offering a fresh approach to current geopolitical spatiolegal and ecological issues

**L'épuisement du biographique?** Vincent Broqua, Guillaume Marche, 2010 Pourquoi penser le biographique N TM est il pas c puis c Le si cle pass c semble l TM avoir vid c de son contenu et de sa substance et l TM a r c duit un c tat d TM affaiblissement presque complet dans le domaine des sciences sociales comme dans celui de la critique litt c raire L TM enjeu de cet ouvrage est d TM affirmer que le biographique d c borde la biographie

et de considérer le biographique comme une condition du retour de la biographie au moyen de son déplacement. Cet ouvrage rassemble des travaux abordant des questions historiques et littéraires dans une multiplicité de thématiques géographiques : pays de langue allemande, anglaise, espagnole et italienne. Penser la spécificité du biographique suppose de prendre en compte plusieurs disciplines et aires culturelles diversifiées, car le biographique se trouve au croisement des sciences sociales et de la littérature au point de rencontre entre science et fiction. Ce livre propose un état de la réflexion sur le sujet.
