Whose View of Life? Jane Maienschein,2009-07-01 Saving lives versus taking lives These are the stark terms in which the public regards human embryo research a battleground of extremes a war between science and ethics Such a simplistic dichotomy encouraged by vociferous opponents of abortion and proponents of medical research is precisely what Maienschein seeks to counter with this book *History of His Life and Labors* Wilford Woodruff,2018-04-05 Reproduction of the original *History of His Life and Labors* by Wilford Woodruff **Chinese Ideas of Life and Death** Michael Loewe,2018-09-03 Many of the basic characteristics of Imperial China took shape during the Han period 202 BC AD 220 This book first published in 1982 is a key contribution to our understanding of China s cultural history It explains the conceptual background of many of the artefacts of China s past and calls on the written word of the philosopher poet and historian and on cultural treasures revealed by archaeologists **Fundamental conceptions as to the characteristics and embodiments of life, with special reference to pathology** Joseph Coats,1894 **Life in the Balance** Welsh S. White,2026-02-16 *Life in the Balance* is a critical examination of our system of capital punishment Individual essays carefully scrutinize legal rules that are of particular significance when a defendant s life is at stake One essay discusses the admissibility of confessions obtained by police trickery another the admissibility of government psychiatric testimony and still another the constitutional problems raised by the practice of death qualifying juries in capital cases In addition the introduction places these issues in a proper context by explaining how the Supreme Court has erected a particular system of capital punishment and delineating the legal issues that are likely to be especially significant in the future Particularly directed to law professors and lawstudents the book should be of interest as well to lawyers and judges who are involved in litigating issues related to capital punishment and it should appeal to readers who are interested either in the death penalty or in the way in which the legal system seeks to provide procedural safeguards for those accused of serious offenses

Competition in Religious Life Jay Newman,2006-01-01 In his latest work on the social consequences of religious commitment Jay Newman reveals in clear and concise fashion the extent to which competitiveness is an essential feature of religious life His assessment charts various classical strategies that have been proposed for either eliminating such competitiveness or directing it into appropriate channels After a detailed philosophical analysis of the nature and value of competition the author examines competition between denominations and within denominations and considers religious competition in some of its less obvious forms In the process of evaluating the methods for curbing religious competition advocated by such thinkers as Spinoza and Lessing as well as by modern ecumenists the author points the way to a general approach to religious competition that minimizes destructive religious conflicts without ignoring the positive value of
