## **Ebook Virtual Collaboration:**

**Virtual Teams** Terri R. Kurtzberg, 2014-03-28 To advance in today's workplace requires virtual team skills. Most individuals assume their face-to-face skills will translate, but competency with virtual communication and teamwork requires an entirely new set of skills. This book guides readers down the path to success. Electronic communication is now embedded in our daily experience, as is work involving off-site collaborators. Virtual communication has become an essential job skill that is critical to individual and group success, yet most people just muddle through it without giving it any thought. Drawing on decades of scientific research in the fields of psychology, organizational behavior, and sociology, this book explains how to master the art and science of communicating virtually. The author first analyzes the subtle but significant changes that result when conversations are moved online, providing examples and tips to avoid common pitfalls, then discusses how team behavior and decision making can best be guided in this realm. Readers will fully understand what makes teams click, what inspires trust, how to get a team off on the right foot, and what steps to take in order to make good collaborative decisions, as well as other key topics for virtual teamwork, such as best practices for working in the cross-cultural environment. The book serves as an ideal guide for anyone who participates in or manages a virtual team, but is also suitable as a supplemental textbook in a business school course on organizational behavior or business communication. **Literary Translation, Reception, and Transfer** Norbert Bachleitner,2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture

especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world of literature The thirty eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature
