The Lost Steps:

The Lost Steps Alejo Carpentier, 1971 *The Lost Steps* Alejo Carpentier, 2023-09-12 If Carpentier is ever to get a new reading in English it should be now West's translations reintroduce English language readers to this giant of Latin American fiction Natasha Wimmer *The New York Review of Books* The best known book by Cuba's most important twentieth century novelist in its first new English translation in more than sixty years and featuring a new introduction by Leonardo Padura A Penguin Classic Dissatisfied with his empty Sisyphus like existence in New York City where he has abandoned his creative dreams for a job in corporate advertising a highly cultured aspiring composer wants nothing more than to tear his life up from the root He soon finds his escape hatch a university sponsored mission to South America to look for indigenous musical instruments in one of the few areas of the world not yet touched by civilization Retracing the steps of time he voyages with his lover into a land that feels outside of history searching not just for music but ultimately for himself and turning away from modernity toward the very heart of what makes us human For more than seventy five years Penguin has been the leading publisher of classic literature in the English speaking world With more than 2 000 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators *The Ends of Literature* Brett Levinson, 2001 *The Ends of Literature* analyzes the part played by literature within contemporary Latin American thought and politics above all the politics of neoliberalism The why of contemporary Latin American literature is the book's overarching concern Its wide range includes close readings of the prose of Cortázar Carpentier Paz Valenzuela Piglia and Las Casas of the relationship of the Boom movement and its aftermath of testimonial narrative and of contemporary Chilean and Chicano film The work also investigates in detail various theoretical projects as they intersect with and emerge from Latin American scholarship cultural studies deconstruction psychoanalysis and postcolonial studies Latin American literature both as a vehicle of conservatism and as an agent of subversion is bound from its inception to the rise of the state Literature's nature role and status are therefore altered when the Latin American nation state succumbs to the process of neoliberalism as the too strong state dictatorship yields to the too weak state the market and as the various practices of civil society and public life are replaced by private or privatized endeavors However neither the end of literature nor the end of the state can be assumed The end of literature in Latin America is in fact the call for more literature it is the call of literature in particular that of the Boom The end of the state likewise is the demand upon this state The book then analyzes the ends in question as at once their purpose direction future and conclusion Also key to the study is the notion of transition Within much recent Latin American political discussion *la transición* refers to the passage from dictatorship to democracy as well as to the failure of this shift the failure of post dictatorship The author argues that the movement from literary to cultural studies while issuing from intellectual and

aesthetic circles is an integral component of this same transition The thematization of the bond between these two displacements hence of Latin America's voyage into post transition forms a fundamental portion of the text

Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano,2015-05-21 Iconoclastic in spirit Magical Realism and the History of the Emotions in LatinAmerica is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as One Hundred Years of Solitude Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought Magical Realism and the History of the Emotions draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture
