

# Theater Magic

**Henry Ridgely Evans**

## Theater Magic:

*Staging the Blazon in Early Modern English Theater* Sara Morrison, 2016-04-01 Offering the first sustained and comprehensive scholarly consideration of the dramatic potential of the blazon this volume complicates what has become a standard reading of the Petrarchan convention of dismembering the beloved through poetic description At the same time it contributes to a growing understanding of the relationship between the material conditions of theater and interpretations of plays by Shakespeare and his contemporaries The chapters in this collection are organized into five thematic parts emphasizing the conventions of theater that compel us to consider bodies as both literally present and figuratively represented through language The first part addresses the dramatic blazon as used within the conventions of courtly love Examining the classical roots of the Petrarchan blazon the next part explores the violent eroticism of a poetic technique rooted in Ovidian notions of metamorphosis With similar attention paid to brutality the third part analyzes the representation of blazonic dismemberment on stage and screen Figurative battles become real in the fourth part which addresses the frequent blazons surfacing in historical and political plays The final part moves to the role of audience analyzing the role of the observer in containing the identity of the blazoned woman as well as her attempts to resist becoming an objectified spectacle

**Magic** Albert Allis Hopkins, 1901 Magic, 1910 *"If Then the World a Theatre Present..."* Björn Quiring, 2014-08-19 To metaphorize the world as a theatre has been a common procedure since antiquity but the use of this trope became particularly prominent and pregnant in early modern times especially in England Old and new applications of the theatrum mundi topos pervaded discourses often allegorizing the deceitfulness and impermanence of this world as well as the futility of earthly strife It was frequently woven into arguments against worldly amusements such as the stage Commercial theatre was declared an undesirable competitor of God's well ordered world drama Early modern dramatists often reacted to this development by appropriating the metaphor and in an ingenious twist some playwrights even appropriated its anti theatrical impetus Early modern theatre seemed to discover a denial of its own theatricality at its very core Drama was found to succeed best when it staged itself as a great unmasking To investigate the reasons and effects of these developments the anthology examines the metaphorical uses of theatre in plays pamphlets epics treatises legal proclamations and other sources

The Billboard, 1926 *Permanent Revolution* James Simpson, 2019-02-18 How did the Reformation which initially promoted decidedly illiberal positions end up laying the groundwork for Western liberalism The English Reformation began as an evangelical movement driven by an unyielding belief in predestination intolerance stringent literalism political quietism and destructive iconoclasm Yet by 1688 this illiberal early modern upheaval would deliver the foundations of liberalism free will liberty of conscience religious toleration readerly freedom constitutionalism and aesthetic liberty How did a movement with such illiberal beginnings lay the groundwork for the Enlightenment James Simpson provocatively rewrites the history of liberalism and uncovers its unexpected debt to evangelical religion Sixteenth century

Protestantism ushered in a culture of permanent revolution ceaselessly repudiating its own prior forms Its rejection of tradition was divisive violent and unsustainable The proto liberalism of the later seventeenth century emerged as a cultural package designed to stabilize the social chaos brought about by this evangelical revolution A brilliant assault on many of our deepest assumptions Permanent Revolution argues that far from being driven by a new strain of secular philosophy the British Enlightenment is a story of transformation and reversal of the Protestant tradition from within The gains of liberalism were the unintended results of the violent early Reformation Today those gains are increasingly under threat in part because liberals do not understand their own history They fail to grasp that liberalism is less the secular opponent of religious fundamentalism than its dissident younger sibling uncertain how to confront its older evangelical competitor
