New Perspectives in Critical Marketing and Consumer Society Elaine Ritch, Jennifer Brown, Julie McColl, Margie Shields, 2024-11-26 This book adopts a unique perspective in critically evaluating new perspectives of marketing that fall within ethical constructs including EDI, equality, diversity, and inclusivity, gendered implications, and perspectives on sustainability, people, and planet, and intersections with consumer culture. Marketing is often criticised as being commercially focused, profit over people. This book suggests that marketers could and should include consideration for progressive societal discourse and provides examples of how this can be conceptualised within current markets by using contemporary marketing examples and insights from consumer society. This edited collection of chapters addresses topical events from the Met Gala to the FIFA World Cup, as well as examining the music, fashion, and media industries to reflect upon the way in which societal ideologies and discourse are evolving. It offers a new contemporary lens through which marketing can be understood within consumer society. The book will be of interest to undergraduate and postgraduate business and marketing students, academics seeking to develop the curriculum, lecture content, and assessment design, and marketers/practitioners who want to engage with topical marketing discourse. It provides a glimpse into the future of markets and marketing.

Encyclopedia of New Populism and Responses in the 21st Century Joseph Chacko Chennattuserry, Madhumati Deshpande, Paul Hong, 2024-12-02 This book mainly seeks to explain, define, and update the recurring forms of populism in the 21st century. Examples used in this Introduction are limited to English-speaking countries. But populism's existent expressions are ecumenically global. Like any long-lasting perennial organism, it is sturdy and comes in a variety of forms adaptable to environmental changes. In political or cultural terms, its expression has been neither exclusively left-center nor right. Populism contains multitudes, dates back centuries before it was identified with its modern name. Populism has become a hot button issue in recent times. The UK's Sunday heavy *The Guardian* published about 300 articles in 1998 that used the term populism or populist, and by 2016 its use had skyrocketed to over 2,000. And growing.

Probably the single greatest catalyst to date that injected populism into the world's Internet common discourse that infused it into journalism right left and center and awakened populist political activism was the Great Recession of 2007-08 and the subsequent global deprivations it engendered. In today's world populism promises to remain and renew its intensity due to the COVID-19 pandemic's deleterious effects on most nations' middle and low income groups, especially minorities. These are some reasons among many why it is time for populism to be relocated, identified and given refreshed 21st understandings. It has a shifting nature among people; events cause that constantly demands fresh studies. It is a social and cultural phenomenon both universal and particular. In our 21st century world it is a product of our shared cultures and each our own exceptional deep culture. This Encyclopedia is unique in its composition as it includes all the major disciplines of Social Sciences and thus will be a one-stop source of nine different disciplines looking at new populism.

Decoding the New Consumer Mind Kit Yarrow, 2014-03-31. Take a glimpse into the mind of the modern consumer. A decade of swift and stunning change has profoundly affected the psychology of how, when and why we shop and buy. In *Decoding the New Consumer Mind*, award-winning consumer psychologist Kit Yarrow shares surprising insights about the new motivations and behaviors of shoppers, taking marketers where they need to be today into the deeply psychological and often unconscious relationships that people have with products, retailers, marketing communications and brands. Drawing on hundreds of consumer interviews and shop-alongs, Yarrow reveals the trends that define our transformed behavior. For example, when we shop we show greater emotionality, hunting for more intense experiences and seeking relief and distraction online. A profound sense of isolation and individualism shapes the way we express ourselves and connect with brands and retailers. Neurological research even suggests that our brains are rewired, altering what we crave, how we think and where our attention goes. *Decoding the New Consumer Mind* provides marketers with practical ways to tap into this new consumer psychology and Yarrow shows how to combine technology and innovation to enhance brand image, win love and loyalty through authenticity and integrity, put the consumer's needs and preferences front and center and deliver the most emotionally intense yet uncomplicated experience possible. Armed with Yarrow's strategies, marketers will be able to connect more effectively with consumers, driving profit and success across the organization.
