Islamic Civilization S. M. Ghazanfar, 2006-03-30 Review *Islamic Civilization History Contributions and Influence A Compendium of Literature* is a window to literature pertaining to Islamic history and Islam s contributions to knowledge and its influence in medieval Europe The book is unique in that it presents more than mere annotations it is a collection of literature briefs detailed and focused descriptions of each of the more than six hundred books and articles covered In the post 9 11 environment there has been a surge of interest regarding all things Islamic While much of the new literature is refreshingly positive some works demonstrate a revival of centuries old misconceptions about the Islamic world *Islamic Civilization* examines that dichotomy through literature that the author has accumulated over the past twenty years in connection with other research endeavors concerning early Islamic social thought thus most references have a social science humanities orientation Students research

scholars and professionals will find this bibliography full of useful resources and a stimulus for further reading

The Rise and Fall of the Islamic Empires Iftekhhar Mahmood, Ph.D.,2004-04 Islam the most misunderstood religion in the West also came under intense scrutiny after the incident of September 11 2001 In the West some people made genuine effort to understand this religion and its followers whereas there were people who put all their efforts to malign Islam and its founder The troubled and unstable politics of the Middle East along with the rise of Islamic fundamentalism mistakenly has created the impression that all Muslims are violent and fundamentalists While writing the history of Islam most of the Western writers tend to focus too much on the Ottoman history These writers ignore the great Muslim civilizations which existed in Spain North Africa Egypt Iran and India Today the Islamic civilization has declined but it has its socio political impact on the world and in order to understand the current political plight of the Islamic world its past also needs to be assessed in all regions of the world

Encyclopedia of Islamic Civilisation and Religion Ian Richard Netton,2008 **Studies in Islamic Civilization**

Ahmed Essa,Othman Ali,Othman Ali ,2010-01-01 Studies in Islamic Civilization draws upon the works of Western scholars to make the case that without the tremendous contribution of the Muslim world there would have been no Renaissance in Europe For almost a thousand years Islam was arguably one of the leading civilizations of the world spanning a geographic

area greater than any other. It eliminated social distinctions between classes and races, made clear that people should enjoy the bounties of the earth provided they did not ignore morals and ethics, and rescued knowledge that would have been lost if not forever, then at least for centuries. The genius of its scholars triggered the intellectual tradition of Europe, and for over seven hundred years its language, Arabic, was the international language of science. Strange then that its legacy lies largely ignored and buried in time. In the words of Aldous Huxley, "Great is truth, but still greater from a practical point of view is silence about truth." By simply not mentioning certain subjects, propagandists have influenced opinion much more effectively than they could have by the most eloquent denunciations. *Studies in Islamic Civilization* is a compelling attempt to redress this wrong and restore the historical truths of a golden age that ushered in the Islamic renaissance and as a by-product that of the West. In doing so, it gives a bird's-eye view of the achievements of a culture that at its height was considered the model of human progress and development.
