Graham,2012-11-30 Jim Henson was the creative force behind a huge catalog of television series films specials and other productions even excepting the Muppets This collection of essays delves into the rest of Henson s body of work including projects developed during his lifetime and those that represent his legacy Covered here are *Fraggle Rock* *The Dark Crystal* *Labyrinth* *The Jim Henson Hour* *Dinosaurs* *Farscape* and more Henson s influence on both audiences and later productions remains palpable on screens large and small as this collection attests      **America's Film Legacy, 2009-2010**

Daniel Eagan,2011-11-24 An authoritative and extraordinary guide to the newest 50 films chosen by the National Film Registry from 2009 10      **Jim Henson** Brian Jay Jones,2013-09-24 NEW YORK TIMES BESTSELLER For the first time ever a comprehensive biography of one of the twentieth century s most innovative creative artists the incomparable irreplaceable Jim Henson He was a gentle dreamer whose genial bearded visage was recognized around the world but most people got to know him only through the iconic characters born of his fertile imagination Kermit the Frog Bert and Ernie Miss Piggy Big Bird The Muppets made Jim Henson a household name but they were just part of his remarkable story This extraordinary biography written with the generous cooperation of the Henson family covers the full arc of Henson s all too brief life from his childhood in Leland Mississippi through the years of burgeoning fame in America to the decade of international celebrity that preceded his untimely death at age fifty three Drawing on hundreds of hours of new interviews with Henson s family friends and closest collaborators as well as unprecedented access to private family and company archives Brian Jay Jones explores the creation of the Muppets Henson s contributions to *Sesame Street* and *Saturday Night Live* and his nearly ten year campaign to bring *The Muppet Show* to television Jones provides the imaginative context for Henson s non Muppet

projects including the richly imagined worlds of *The Dark Crystal* and *Labyrinth* as well as fascinating misfires like Henson's dream of opening an inflatable psychedelic nightclub. An uncommonly intimate portrait, Jim Henson captures all the facets of this American original: the master craftsman who revolutionized the presentation of puppets on television; the savvy businessman whose dealmaking prowess won him a reputation as the new Walt Disney; and the creative team leader whose collaborative ethos earned him the undying loyalty of everyone who worked for him. Here also is insight into Henson's intensely private personal life: his Christian Science upbringing; his love of fast cars and expensive art; and his weakness for women. Though an optimist by nature, Henson was haunted by the notion that he would not have time to do all the things he wanted to do in life—a fear that his heartbreaking final hours would prove all too well founded. An up-close look at the charmed life of a legend, Jim Henson gives the full measure to a man whose joyful genius transcended age, language, geography, and culture and continues to beguile audiences worldwide.

**NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BOOKPAGE** Jim Henson vibrantly delves into the magnificent man and his Muppet methods. It's an absolute must-read. Neil Patrick Harris. An exhaustive work that is never exhausting—a credit both to Jones's brisk style and to Henson's exceptional life. *The New York Times*. A sweeping portrait that is a mix of humor, mirth, and poignancy. *Washington Independent Review of Books*. A meticulously researched tome chock full of gems about the Muppets and the most thorough portrait of their creator ever crafted. Associated Press.

[The Social History of the American Family](#) Marilyn J. Coleman, Lawrence H. Ganong, 2014-09-02

The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the ideal family have changed over time. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture, including mass media, families and religion, families and the economy, families and social issues, families and social stratification, and conflict; family structures, including marriage and divorce, gender roles, parenting, and children; and mixed and non-modal family forms and family law and policy. Features approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross-references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. *The Social History of the American Family* is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.
