The Solar Cult:

The Order of the Solar Temple James R. Lewis, 2016-02-24 In October 1994 fifty three members of the Order of the Solar Temple in Switzerland and Quebec were murdered or committed suicide This incident and two later group suicides in subsequent years played a pivotal role in inflaming the cult controversy in Europe influencing the public to support harsher actions against non traditional religions Despite the importance of the Order of the Solar Temple there are relatively few studies published in English This book brings together the best scholarship on the Solar Temple including newly commissioned pieces from leading scholars a selection of Solar Temple documents and important previously published articles newly edited for inclusion within this book This is the first book length study of the Order of the Solar Temple to be published in English

Temple of the World Miroslav Verner, 2013 Despite the prominence of ancient temples in the landscape of Egypt books about them are surprisingly rare this new and essential publication from a prominent Czech scholar answers the need for a study that goes beyond temple architecture to examine the spiritual economic and political aspects of these specific institutions and the dominant roles they played Miroslav Verner presents a deeper and more complex study of major ancient Egyptian religious centers their principal temples their rise and decline their religious doctrines cults rituals feasts and mysteries Also discussed are the various categories of priests the organization of the priesthood and its daily services and customs Each chapter offers the reader essential and up to date information about temple complexes and the history of their archaeological exploration in the context of the spiritual dimension and cultural legacy of ancient Egypt

The Origin and Evolution of Religion Albert Churchward, 2000 Other than Sir James Frazer The Golden Bough Churchward is the only person to have written such a monumental work on religion In it he encompasses the complete evolution of religious ideas over millions of years The first humans from Africa worshipped elemental powers progressed into ancestor worship then finally began to recognize what we could term a Great Spirit Some of our earliest mythological stories are told including tales of Resurrection journeys to the underworld and the first hero stories Also explored are the meanings and true origins of sun worship tree worship phallic worship and serpent worship Ends with something we should all take to heart our religious evolution is definitely not over

The Gods of Mexico Lewis Spence, 1923 *A Journey through the Beyond* Silvia Zago, 2022-02-01 This volume offers the first comprehensive overview of the evolution over time of a foundational concept of the Egyptian afterlife beliefs the Duat or netherworld The Duat is a complicated multifaceted notion which was never canonized into a single version of the beyond but offered instead a variety of alternatives attempting to describe the metaphysical realms beyond the visible world and beyond life Theological speculations gave rise to a rich textual and visual repertoire which underwent a process of evolution over thousands of years during which newer ideas and images were constantly introduced Through the analysis of royal and non royal funerary texts from the late Old Kingdom to the end of the New Kingdom this book traces the development of the conceptualization of the

notion of Duat outlining what it encompassed and where it was imagined to be located In addition to the translation and discussion of the most significant passages of the texts analyzed each chapter also provides an overview of the individual compositions and of the relevant theological cosmological and astronomical notions complementing the conceptual framework of which the Duat formed but a part Additionally discussions of concurrent changes in Egyptian culture society and ideology are included in order to clarify the context in which afterlife beliefs and related texts evolved An analysis of the correlation between funerary compositions and their material supports complements the study emphasizing the Egyptians belief in a magical synergy between texts images and their contexts in the activation of a suitable effective afterlife for the recipients of the texts

Revival: Origin and Evolution of the Human Race (1921) Albert Churchwood,2018-01-17 Where and when did man make his first appearance on this earth The object of this book is to bring before the public such further facts and values regarding the evolution of man After studies Churchwood made during many years he is now fully convinced that the hitherto preconceived ideas of many scientists regarding the origin of the human race both as to place and date are erroneous and evidence will be brought forward to prove that the human race did not originate in Asia but in Africa The Origin and Evolution of Religion (Routledge Revivals) Albert Churchward,2015-06-03 Churchward s The Origin and Evolution of Religion first published in 1924 explores the history and development of different religions worldwide from the religious cults of magic and fetishism to contemporary religions such as Christianity and Islam This text is ideal for students of theology
