The Soviet Colossus:

The Soviet Colossus Michael G. Kort,2014-12-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia s history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia s past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of The Soviet Colossus brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one semester history course or background for a political science course

The Soviet Colossus Michael G. Kort,2019-04-17 The Soviet Colossus revisits the turning points in Russia s modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin This eighth edition has been revised and updated to cover the latest developments from the Putin administration These revisions include added emphasis on the increasing authoritarian nature of Russia s political system the serious challenges posed by the country s unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow s aggression against Ukraine Kort combines this updated account with a broad exploration of Russia s political history examining how the Soviet past has been woven into the fabric of the modern Russian state a state which plays such a major assertive role in global affairs but which simultaneously remains an allusive secretive entity With Russia s increasing influence on the global stage and the controversies that often accompany this The Soviet Colossus is an invaluable resource for students of history politics and international relations

D. Bakshi,1997 *The Holocaust* Ryan Barrick,Abigail S Gruber,David Misal,2014-04-11 This book is a collection of seventeen scholarly articles which analyze Holocaust testimonies photographs documents literature and films as well as teaching methods in Holocaust education Most of these essays were originally presented as papers at the Millersville University Conferences on the Holocaust and Genocide from 2010 to 2012 In their articles the contributors discuss the Holocaust in concentration camps and ghettos as well as the Nazis methods of exterminating Jews The authors analyze the reliability of photographic evidence and eyewitness testimonies about the Holocaust The essays also describe the psychological impact of the Holocaust on survivors witnesses and perpetrators and upon Jewish identity in general after the Second World War The scholars explore the problems of the memorialization of the Holocaust in the Soviet Union and the description of the Holocaust in Russian literature Several essays are devoted to the representation of the Holocaust in film and trace the evolution of its depiction from the early Holocaust movies of the late 1940s early 1950s to modern Holocaust fantasy films They also show the influence of Holocaust cinema on feature films about the Armenian Genocide Lastly several authors propose innovative methods of teaching the Holocaust to college students The younger generation of students may see the Holocaust as an event of the distant past so new teaching methods are needed to explain its significance This collection of essays based on new multi disciplinary research and innovative methods of teaching opens many unknown aspects and provides new perspectives on the Holocaust *Why Germany Nearly Won* Steven D. Mercatante,2012-01-16 This book offers a unique perspective for understanding how and why the Second World War in Europe ended as it did and why Germany in attacking the Soviet Union came far closer to winning the war than is often perceived *Why Germany Nearly Won A New History of the Second World War in Europe* challenges this conventional wisdom in highlighting how the re establishment of the traditional German art of war updated to accommodate new weapons systems paved the way for Germany to forge a considerable military edge over its much larger potential rivals by playing to its qualitative strengths as a continental power Ironically these methodologies also created and exacerbated internal

contradictions that undermined the same war machine and left it vulnerable to enemies with the capacity to adapt and build on potent military traditions of their own The book begins by examining topics such as the methods by which the German economy and military prepared for war the German military establishment s formidable strengths and its weaknesses The book then takes an entirely new perspective on explaining the Second World War in Europe It demonstrates how Germany through its invasion of the Soviet Union came within a whisker of cementing a European based empire that would have allowed the Third Reich to challenge the Anglo American alliance for global hegemony an outcome that by commonly cited measures of military potential Germany never should have had even a remote chance of accomplishing The book s last section explores the final year of the war and addresses how Germany was able to hang on against the world s most powerful nations working in concert to engineer its defeat *Russian Social Science Review* ,1993 **Anthropology & Archeology of Eurasia** ,1992 **Calcutta Review** ,1921 Outlines and Highlights for Soviet Colossus Cram101 Textbook Reviews,2011-05-01 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780765614551 **Commonweal** ,1945 *Peking Review* ,1977 **The Sons of Sergei** Donald Kelley,Shannon Davis,1992-06-16 This collection brings together noted scholars in a comparison of the reform efforts of Nikita Khrushchev and Mikhail Gorbachev Contributors examine the Communist Party in the two eras the economy agriculture law ideology policy foreign affairs defence policy and Eastern Europe
