## **Things Are Meaning Less:**

*Philosophy in a Meaningless Life* James Tartaglia, 2015-12-17 *Philosophy in a Meaningless Life* provides an account of the nature of philosophy which is rooted in the question of the meaning of life It makes a powerful and vivid case for believing that this question is neither obscure nor obsolete but reflects a quintessentially human concern to which other traditional philosophical problems can be readily related allowing them to be reconnected with natural interest and providing a diagnosis of the typical lines of opposition across philosophy s debates James Tartaglia looks at the various ways philosophers have tried to avoid the conclusion that life is meaningless and in the process have distanced philosophy from the concept of transcendence Rejecting all of this Tartaglia embraces nihilism we are here with nothing to do and uses transcendence both to provide a new solution to the problem of consciousness and to explain away perplexities about time and universals He concludes that with more self awareness philosophy can attain higher status within a culture increasingly in need of it
