Before Reading	During Reading	After Reading
Preview the text – consider title, layout, topic...	Highlight or underline key words or ideas.	Summarise content in note form or by drawing pictures.  Discuss the text with a partner or a group. Work together to identify the most important ideas.
Activate prior knowledge – What do you already know about this topic? What do you already know about this type of text?	Make connections with your prior knowledge – does the text confirm or refute what you thought you already knew?	Compare the text with another text, considering content and form.
Make predictions – what do you expect from the text?	Stop reading and review your predictions. Make more predictions or change your initial ideas.	Does the text end in the way you expected?
Try to identify the purpose of the text. Who is the audience?	Consider whether your thoughts on purpose and audience are supported by what you are reading.	Evaluate how well the text fulfils its purpose and meets the needs of its audience.
Ask questions – do you have any questions you would like the text to answer?	Try to answer the questions you asked before reading.  Ask more questions.	Create your own version of the text.

## Thinking Reader:

**The Thinking Reader** Ciera Harris, 2025-02-21 Concepts lesson plans and strategies for making reading lessons work  
The Thinking Reader Cultivating Critical Thinkers in the Classroom is the frazzled teacher's guide to setting up any grade 2-4 classroom for reading success. You won't find any busywork, condescending lectures, or boring worksheets in this book. Instead, you'll learn flexible reading strategies to blend into your lessons at the start of the school year that will support your students for years to come. This book also debunks old school ideas about reading instruction and explains the concepts that you'll need to know as you help students build a foundation for their future as readers. Former elementary teacher and instructional coach Ciera Harris has achieved remarkable, replicable results with young readers, not with a rigid system or program, but with a new approach to thinking about reading. In this book, you'll learn why it makes sense to go beyond all the lessons of phonics, fluency, and vocabulary by making reading personal to each student. This easy-to-use approach has helped teachers across the country create a culture of reading within their classrooms, so students, even those that struggle the most with reading, can start to view themselves as readers. Help students learn based on what interests them as individuals and watch budding readers bloom. Discover why reading is not a series of decoding skills but a personal, powerful act of thinking. Learn the steps to setting up your classroom for reading success at the beginning of the year. Get engaging lesson plans and techniques for implementing primary reading strategies like schema, asking questions, metacognition, and so much more. Overcome common roadblocks, including student resistance to reading. With *The Thinking Reader*, elementary school teachers in grades 2-4 can build the ultimate framework for reading success.
