*Practical Program Evaluations* Gerald Andrews Emison, 2006-09-07 Program evaluation requires attention to rationality rigor and careful methods Yet precision and accuracy alone do not guarantee that program evaluations will be implemented What prevents an evaluation from being thrown on a shelf to gather dust Author Gerald Emison a practitioner with more than 20 years experience knows that the consumers of program evaluations operate in a decidedly practical and political arena where decision making is a very human and sometimes messy process Getting students from ideas to outcomes means that knowing clients needs and effectively communicating results are just as crucial as an evaluator s theoretical knowledge and statistical analysis Emison wants to help students translate their mastery of methodology into useable program evaluations that are implemented and affect actual programs Short and to the point *Practical Program Evaluations* hones in on the applied side of program evaluation with the goal of creating and presenting program evaluations that are used and improve public enterprises A handy supplement to core texts Emison offers honest advice emphasizing practices that focus on the client content control and communication of program evaluations *A Grammar of Warrongo* Tasaku Tsunoda, 2011-12-23 Warrongo is an extinct Australian Aboriginal language that used to be spoken in northeast Australia This volume is largely based on the rich data recorded from the last fluent speaker It details the phonology morphology and syntax of the language In particular it provides a truly scrutinizing description of syntactic ergativity a phenomenon that is rare among the world s language It also shows that unlike some other Australian languages Warrongo has noun phrases that are configurational Overall this volume shows what can be documented of a language that has only one speaker *Fire Management Notes* ,1990 *Masters of Men* Morgan Robertson, 1901 **Living Hope for the End of Days** John S.
