

THE MONADIC UNIVERSE

George Zebrowski, author of the best-selling novel *OMEGA POINT*, is a unique and creative talent whose thoughtful and entertaining works have generated great critical praise and gained him a devoted following of readers.

One of these fans is Thomas N. Scortis, who writes in the introduction to this volume: "I have watched George Zebrowski's body of work grow for five years. The distance he has travelled in half a decade is impressive. The rate at which his talent is growing makes me impatient to see the product of his talent twenty years from now. . . . I have watched Zebrowski grow artistically to become one of the leaders of the new generation of science fiction writers. . . ."

The Monadic Universe George Zebrowski,1985 *A Monadic Universe* Clifton Charles Winn,1931 *The Monad Manifesto* Dennis William Hauck,2022-03-08 The Monad is the indivisible single source of consciousness and information that created our universe In philosophy the Monad is the origin of all things the totality of both our present existence and all possible future incarnations For theologians it is the Word of God that created the world In mathematics the Monad is the archetypal origin of all the numbers and geometric shapes that describe Nature Computer scientists view it as the cosmic code embedded in the matrix of reality In science the Monad is the Singularity the Big Bang explosion of light and consciousness from which our universe sprung forth In *The Monad Manifesto* we explore the mysterious monadic origin of the universe and its relationship to the field of conscious awareness that we all share The book is organized into a central Manifesto and ancillary chapters that expand and document the ideas presented These chapters include *The Monad in Philosophy* *The Monad in Science* *The Monad in Mathematics* and *Monad Cosmology* We will also explore the ways people experience monadic reality in the chapter *Monadic Experiences* Then we will learn methods of meditation developed down through the ages to connect to the Source in *Monad Meditations* **A Theory of Monads** Herbert Wildon Carr,1922
