Armstrong, Timothy P. Terrell, 2003 This is a different kind of book about legal writing It assumes its readers are good writers who have already absorbed most of the usual advice about legal writing But they may lack the intellectual framework for thinking like a writer with the same incisiveness with which they think like a lawyer This book provides that framework It focuses on the underlying principles for communicating complicated information clearly and for establishing your credibility with demanding audiences As a result it helps to transform good writers into first rate ones and to make them far more efficient and powerful editors of their own writing and of others drafts Its unique approach will benefit supervising lawyers who do more editing than writing as well as lawyers who do their own drafting Thinking Like a Writer Stephen V.
