Philip Cam

Thinking Stories 1:

Thinking Stories I Philip Cam, 1993 Designed to accompany the Thinking Stories 1 reader this text offers suggestions for instigating and guiding philosophical discussion in the classroom The author is a senior lecturer in the school of philosophy at the University of New South Wales He is a former president of the Philosophy for Children Association of NSW and foundation chairperson of the Federation of Australian Philosophy for Children Associations

Twenty Thinking Tools Philip Cam, 2006 Annotation Beginning with an Introductory Toolkit Twenty Thinking Tools shows teachers how to strengthen students abilities to ask insightful questions to look at problems and issues from various points of view to explore disagreements reasonably to make appropriate use of examples to draw needful distinctions and generally to develop their imaginative conceptual and logical abilities in order to gain a deeper knowledge and understanding of all kinds of subject matter

Philosophical Inquiry with Children Gilbert Burgh, Simone Thornton, 2018-12-07 Philosophy in schools in Australia dates back to the 1980s and is rooted in the Philosophy for Children curriculum and pedagogy Seeing potential for educational change Australian advocates were quick to develop new classroom resources and innovative programs that have proved influential in educational practice throughout Australia and internationally Behind their contributions lie key philosophical and educational discussions and controversies which have shaped attempts to introduce philosophy in schools and embed it in state and national curricula Drawing together a wide range of eminent scholars and practitioners in the field of educational philosophy this anthology the first of its kind provides not only a historical narrative but an opportunity to reflect on the insights and experiences of the authors that have made history The collection is divided into three parts The overarching theme of Part I is the early years of Philosophy for Children in Australia and how they informed the course that the philosophy in schools movement would take Part II focuses on the events and debates surrounding the development and production of new materials including arguments for and against the suitability of the original Philosophy for Children curriculum In Part III key developments relating to teaching philosophy in schools are analysed This collection of diverse views critical appraisals and different perspectives of historical currents is intended to stimulate thought provoking questions about theory and practice and to increase general awareness both nationally and internationally of the maturation of philosophy in schools in Australia It is also intended to encourage readers to identify emerging ideas and develop strategies for their implementation

The Socratic Classroom Sarah Davey Chesters, 2012-09-13 This book provides a framework for a collaborative inquiry based approach to teaching and learning suitable not only for formal educational settings such as the school classroom but for all educational settings For teachers educationalists philosophers and philosophers of education The Socratic Classroom presents a theoretical as well as practical exploration of how philosophy may be adopted in education The Socratic Classroom captures a variety of philosophical approaches to classroom practice that could be broadly described as Socratic in form There is an exploration of three distinct approaches that make significant contributions to classroom

practice Matthew Lipman's Community of Inquiry Leonard Nelson's Socratic Dialogue and David Bohm's Dialogue All three models influence what is termed in this book as Socratic pedagogy Socratic pedagogy is multi dimensional and is underpinned by generative evaluative and connective thinking These terms describe the dispositions inherent in thinking through philosophical inquiry This book highlights how philosophy as inquiry can contribute to educational theory and practice while also demonstrating how it can be an effective way to approach teaching and learning Audience This publication is suited to educators teacher educators philosophers of education and philosophers in general It has a theoretical and practical focus making it truly interdisciplinary

Once Upon an If Peter Worley, 2014-01-31 If you want to tell more stories in the classroom but lack the confidence to do so If you need guidance finding stories that are good to get children thinking If you like using stories in your teaching but want to get more from them than the moral at the end *Once Upon an If* is the book for you In his brand new book award winning author Peter Worley provides a comprehensive guide to everything a would be storyteller needs including how to bring a story to life tips on how to memorise a story and improvise descriptions and techniques for using tone movement and timing to engage and involve the children in your class *Once Upon an If* also comprises a treasury of stories new and old written especially to get a young audience thinking actively about the deeper issues that lie behind and within the tales Guidance notes lesson plans and activity questions are included with every story and there is a companion website including extra resources for you to use on your interactive whiteboard *Once Upon an If* draws on Peter's ten years of experience as a philosophy teacher trainer and storyteller to help any teacher place stories and storytelling where they should be back at the heart of teaching

The Challenge of Dialogue Jens Peter Brune, Horst Gronke, Dieter Krohn, 2010 The twelfth volume of the Series on Socratic Philosophizing reflects the international discussion on Socratic philosophizing within a global perspective This volume throws light on the challenges Socratic Dialogue and other forms of dialogue face in different political systems and cultures The following sub topics are discussed the development of the theory and the practice of Socratic Dialogue examples of dialogues practised in different political systems and the role of dialogue in mutual understanding within and between different cultures and in the political and economic sectors

Thinking Stories Book 1, 2005

Reasonable Children Michael S. Pritchard, 1996 The public outcry for a return to moral education in our schools has raised more dust than it has dispelled Building upon his provocative ideas in *On Becoming Responsible* Michael Pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another

s ideas to probe assumptions and different perspectives and ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education
